MADE IN ITALY

Desde 1945 que a nossa energia é movida pela paixão e pelo compromisso de contribuir para o desenvolvimento e evolução dos estilos de vida.
O coração da nossa empresa, onde criamos, projetamos, fabricamos e testamos todos os nossos produtos, está no norte de Itália, em Marostica:
Desde os materiais às formas, das cores aos processos eletrónicos, somos reconhecidos internacionalmente pela nossa qualidade, design e tecnologia.
Uma longa história e tradição de sucesso, baseada numa cultura de valores sólidos e verdadeiros.

Pesquisa. Tecnologia. Simplicidade.
Para garantir um constante desenvolvimento da tecnologia e do design, 6% da nossa faturação anual é investida em P&D. Isso permitiu-nos, ao longo dos anos, apresentar mais de 200 patentes em todo o mundo, refletindo a grande inovação nos pequenos detalhes que tornam a vida a cada dia mais simples e confortável.
Acreditamos plenamente que as novas ideias são criadas para serem partilhadas.

Da simples instalação elétrica aos mais avançados sistemas tecnológicos, **nós resolvemos, transformamos e ligamos a sua energia.**

Nós resolvemos, transformamos e ligamos
a sua energia.

Isso permite-nos oferecer **acabamentos e detalhes que transformam os nossos produtos em peças de design de interior.** Estamos convencidos de que a forma e a tecnologia devem conviver e como tal dedicamos o nosso tempo e energia no desenvolvimento de novos projetos de engenharia eletrónica e eletromecânica e na pesquisa de novos materiais.

DESIGN INDEX ADI

reddot design award winner 2019

archiproducts DESIGN AWARDS — WINNER 2019

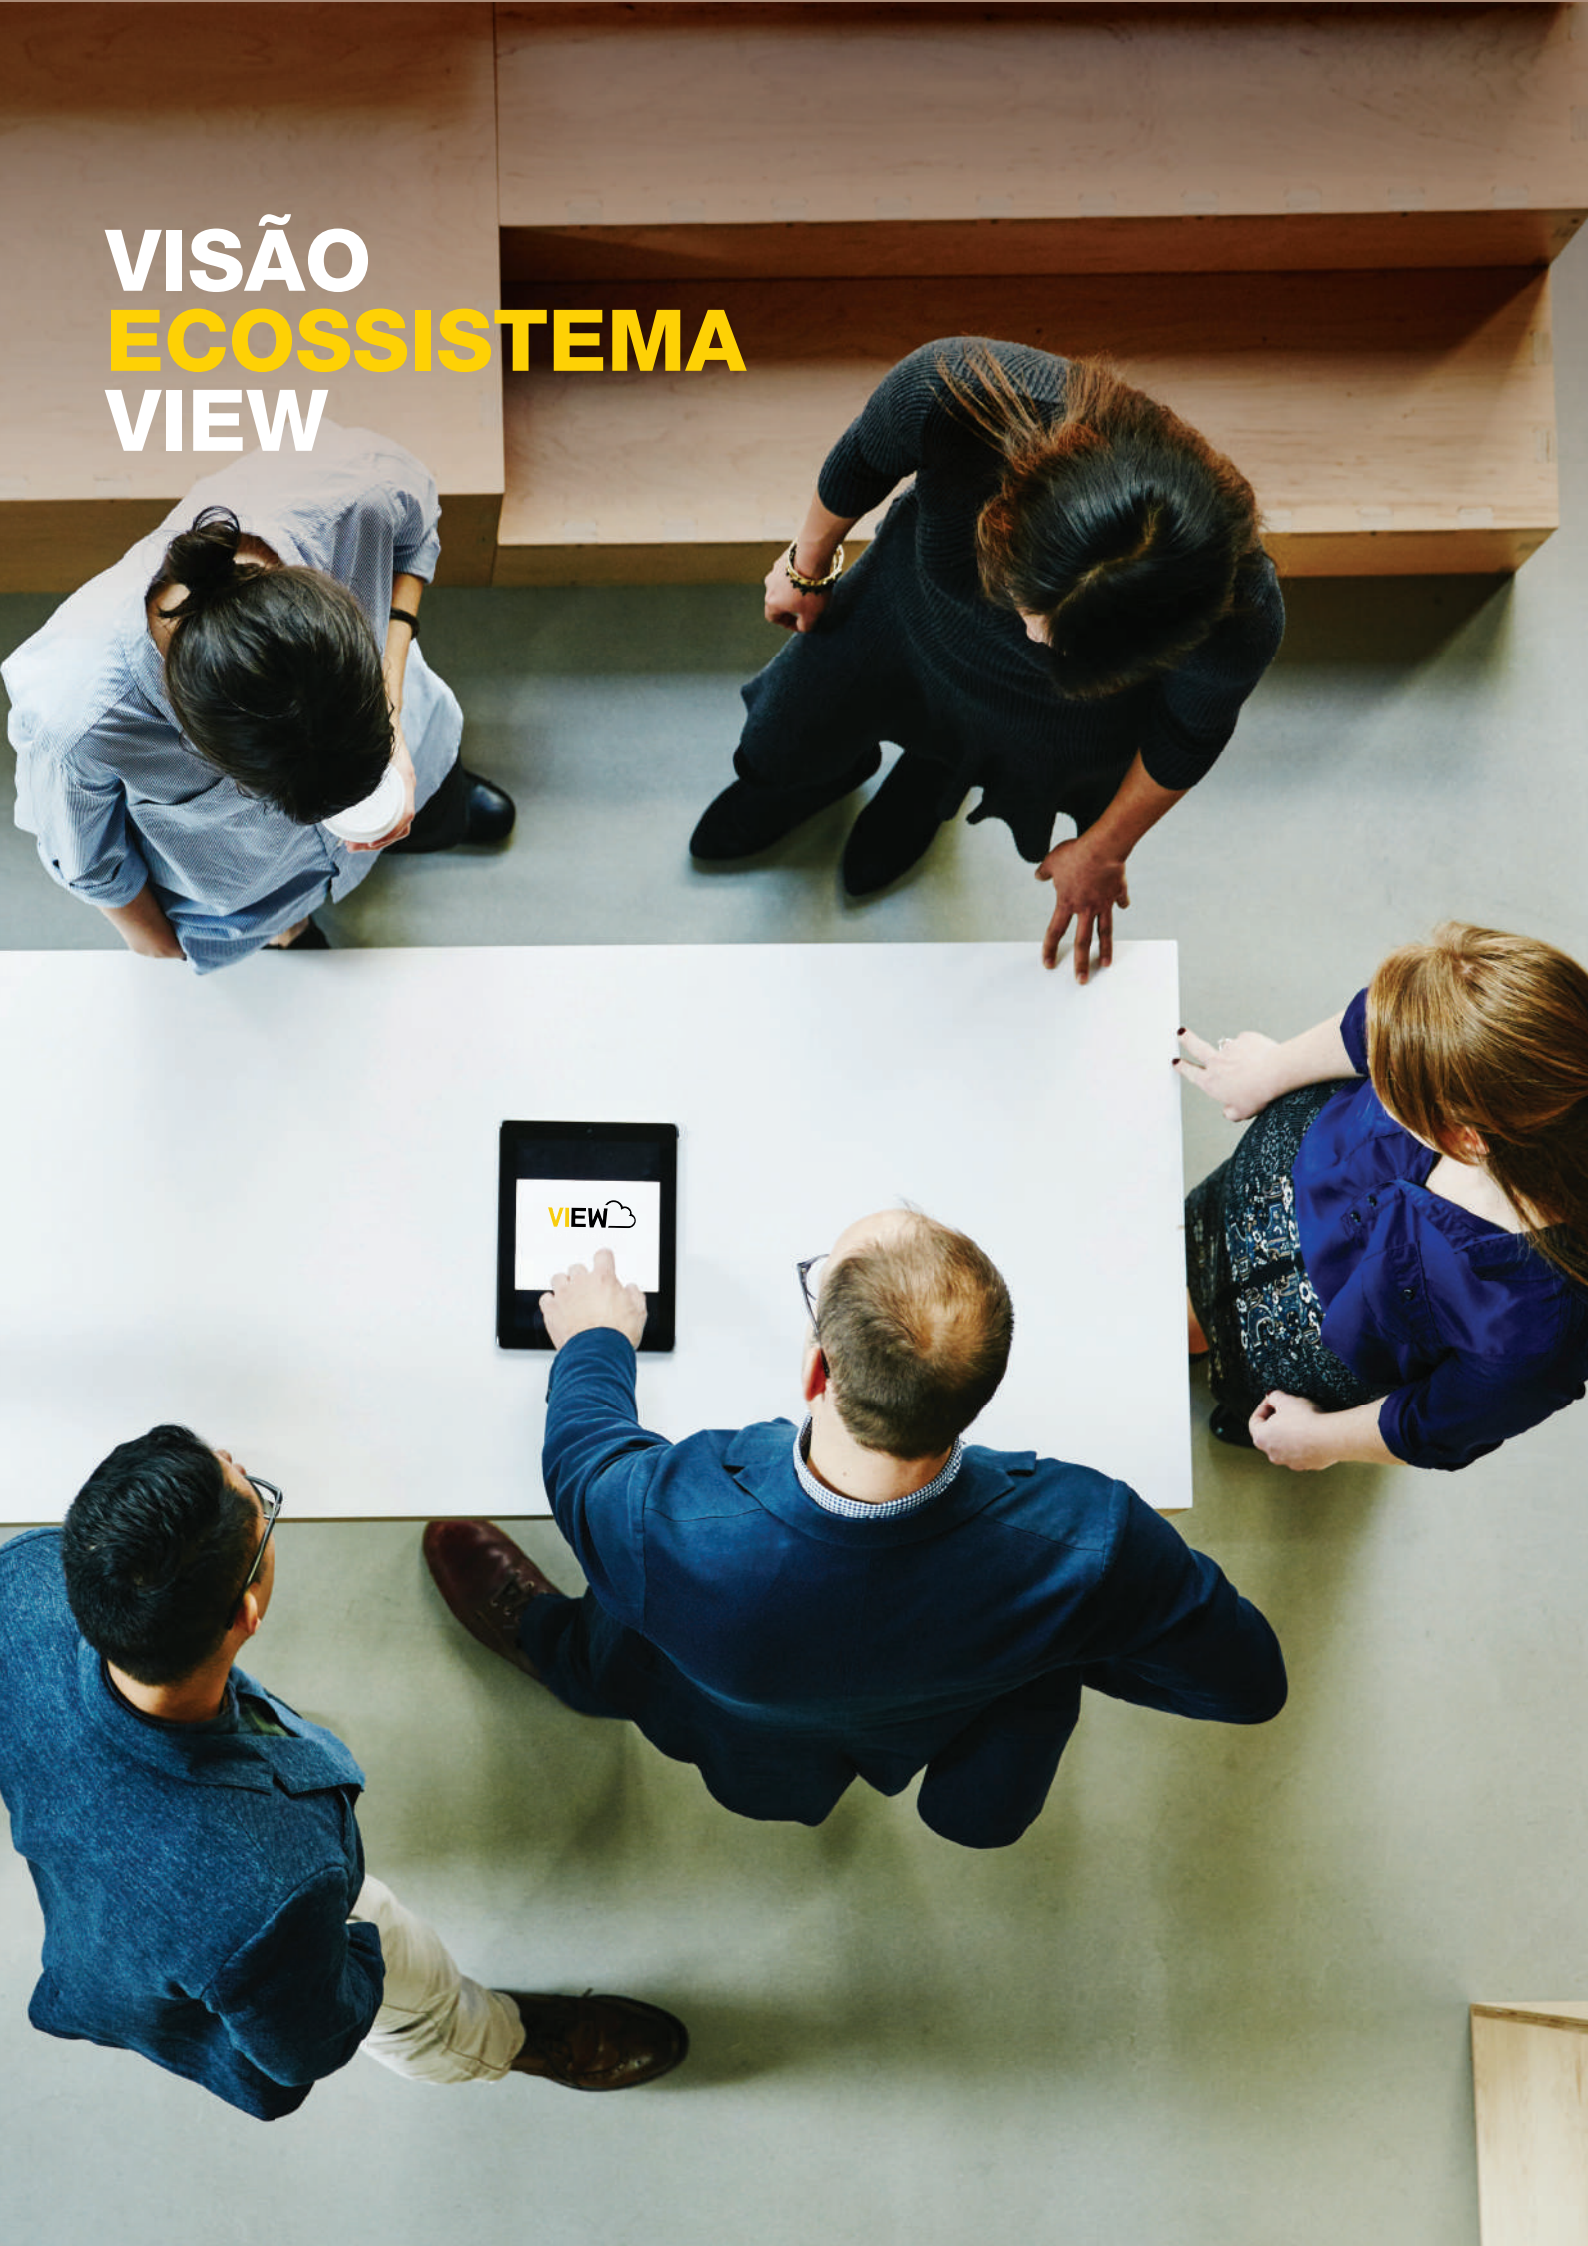

ICONIC AWARDS 2020 INNOVATIVE INTERIOR winner

ICONIC AWARDS 2018 INNOVATIVE ARCHITECTURE winner

Trabalhamos em colaboração próxima com os designers mais conceituados, no sentido de garantir uma evolução comum entre os vários tipos de arquitectura e os diferentes estilos de vida.
Os nossos produtos são o resultado desta abordagem: propostas de design compostas por geometrias harmoniosas, materiais refinados e um estudo cuidadoso dos acabamentos, pensados para valorizar o visual de todos os ambientes para melhor se adequarem aos seus projetos.

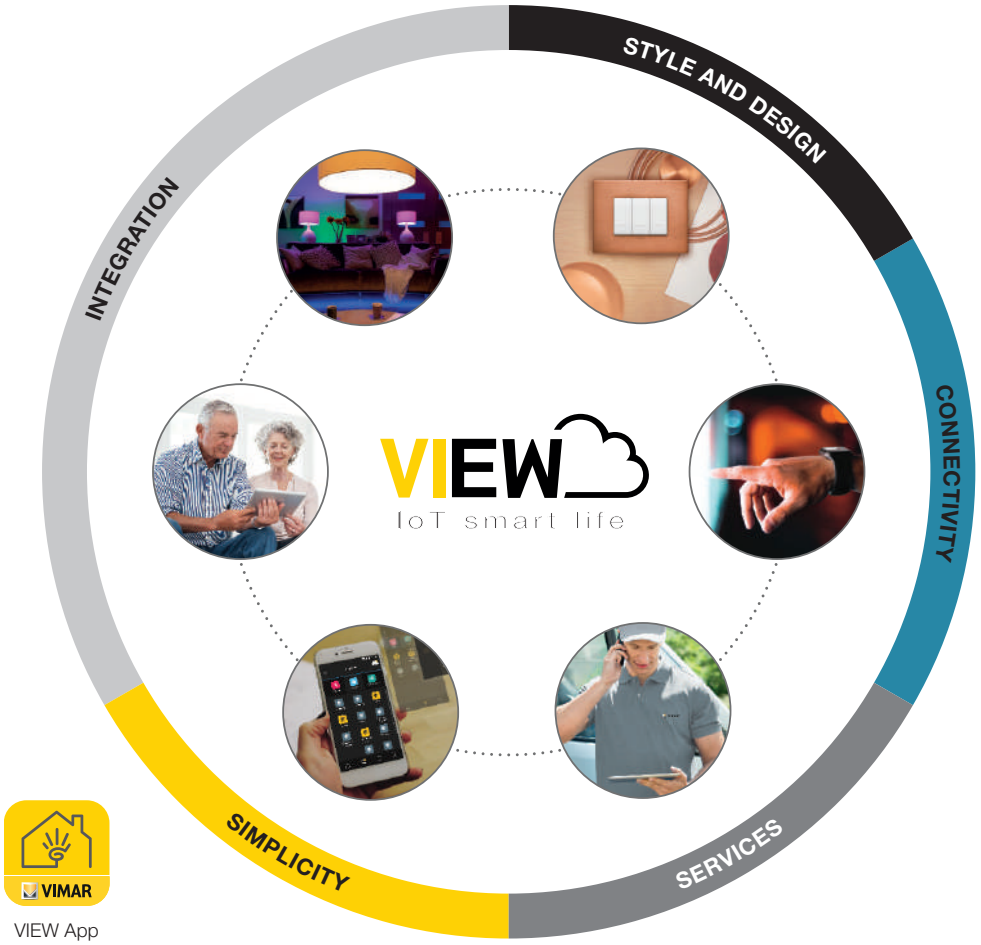

VISÃO ECOSSISTEMA VIEW

A visão para ligar o nosso sistema de produtos

View é uma plataforma única que inclui sistemas e produtos ligados para novos edifícios, renovação ou atualização de sistemas existentes.

Um conjunto de soluções de conforto, eficiência energética e segurança, com produtos esteticamente coordenados e personalizados para responder a todos os ambientes arquitetónicos. Os sistemas e produtos interligados comunicam entre si de forma constante e perfeita, para satisfazer os requisitos específicos de quem vive e projecta espaços.

VIEW App

Uma única App: uma experiência única e intuitiva. Pode gerir, controlar e criar cenários favoritos com a App View. Integre a App com a plataforma IFTTT para integração com dispositivos ligados de terceiros. Através da App VIEW e Vimar Cloud, fica ligado aos seus espaços em qualquer lugar e fica atualizado sobre o que está a acontecer dentro e fora da sua habitação. Simplesmente ligado ao seu próprio mundo.

Wiring devices

A partir de agora, as séries Eikon, Arké e Plana estão ligadas.

Ao mesmo tempo que mantém a sua personalidade, design elegante e acabamentos distintos, que permitem combinar perfeitamente um estilo com qualquer contexto de interiores, as três séries também podem ser transformadas em dispositivos conectáveis entre si, prontos para explorar o potencial infinito que a Internet oferece.

Luxo e tecnologia EIKON 4D

Descubra a série Eikon, com tecnologia e design para aqueles que querem fazer do dispositivo de iluminação um elemento real de design de interiores.

ARKE' vive no seu tempo

Design contemporâneo, funções avançadas, e automação residencial que simplifica o funcionamento de uma casa.

PLANA essencial, com vivacidade e imaginação

Descubra Plana - única, essencial, universal, linear e internacional.

IDEA, um clássico atualizado.

Um estilo clássico, mas atualizado ao minuto. Descubra os acabamentos.

TOQUE
NOS INTERRUPTORES

Detalhes destintos e refinados, criados para fornecer soluções específicas; paletes de cores contemporâneas, escolhidas para se adequarem a todas as combinações; materiais raros e valiosos, fabricados com o know-how dos nossos artesãos ou com as mais avançadas tecnologias de produção eco-friendly.

Soluções versáteis

As nossas soluções respeitam a identidade de cada configuração.
Pode, de forma inteligente, simples e constante, expandir o seu ecossistema para um controlo total da habitação e do edifício.

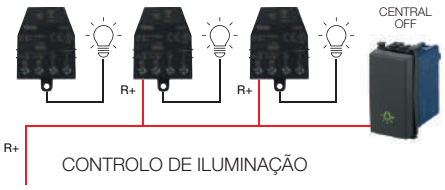

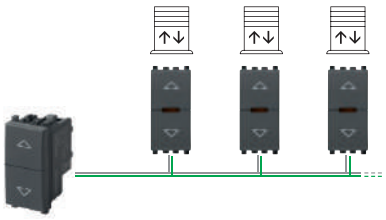

HALL DE HOTEL DE LUXO

Soluções escaláveis.
Instalação elétrica avançada

Inovador para o controlo de luzes e persianas, dedicado aos sistemas tradicionais. A nossa experiência em sistemas tradicionais permitiu-nos criar uma forma inovadora de instalação, fácil e intuitiva, que permite aos sistemas atingir a funcionalidade e fiabilidade máximas.

UNIVERSITÀ DEGLI STUDI DI TORINO

quid+

QUID para iluminação.
Relé inovador e silencioso.

Controlo central.
QUID oferece a possibilidade de realizar um encerramento centralizado do controlo. Pode desligar todas as luzes com apenas um gesto. Além disso, a presença de uma luz piloto revela se a iluminação está ativa em qualquer outro ponto.

Mais silencioso.
Contrariamente aos dispositivos eletromecânicos standard, a mudança de estado torna-se mais silenciosa, graças à tecnologia magnética patenteada da Vimar.

Seguro.
Se o botão permanecer ativo, o relé não entra em sobreaquecimento porque deixou de haver alimentação elétrica após a mudança de estado.

Poupança de energia.
Não consome energia, um benefício para a poupança de energia e para o ambiente.

QUID para persianas.
Interruptor eletrónico inovador.

Controlo centralizado.
O dispositivo controla as persianas e toldos permitindo o controlo do grupo, desativação de carga no final e posições preferenciais.

Fiável e seguro.
Desliga a energia no final para evitar que o motor entre em tensão e seja danificado.

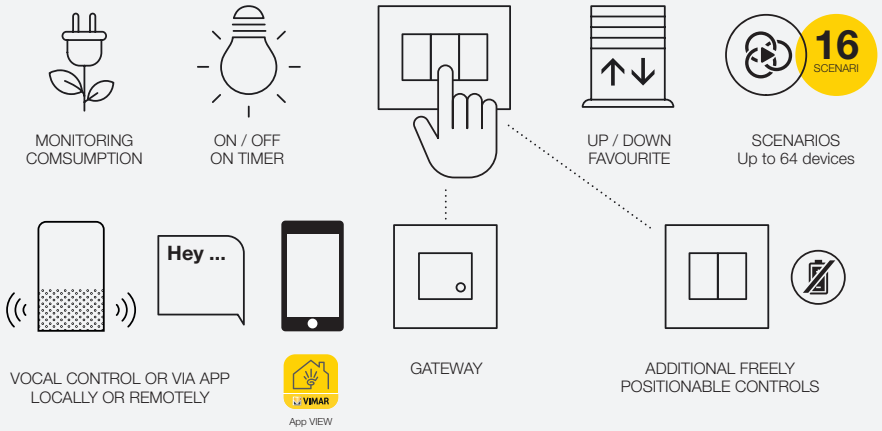

CONNECTED

Soluções escaláveis.
Instalação inteligente ligada

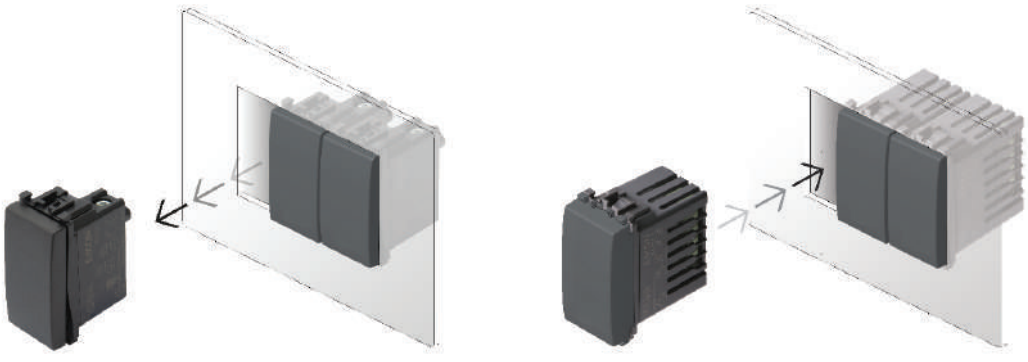

Os novos dispositivos View Wireless concebidos para as séries Eikon, Arké e Plana podem **gerir a iluminação, persianas ou cortinas elétricas, controlar o consumo de energia** e **gerir cenários**, com a maior simplicidade através de interruptores unidirecionais clássicos, **via app ou diretamente por voz**.

O View Wireless pode ser adaptado a qualquer contexto arquitetónico. Atualize, amplie ou substitua o seu sistema de cablagem, com a possibilidade de o tornar integrável ao longo do tempo. Também é ideal para renovações ou para aumentar as funções de um sistema existente, e é um meio útil de apoio para idosos e pessoas com mobilidade reduzida.

Mais fácil, mais funcional.
Uma casa ligada garante, assim, maior conforto, mais eficiência e segurança, tanto dentro das habitações como ao ar livre, valorizando o imóvel e melhorando a vida de quem lá vive.

Atualize o seu espaço de forma simples.
Apenas algumas tarefas. Sem necessidade de trabalhos de construção.
Novo sistema, a mesma forma.

DUAL INTELLIGENCE. DUAL TECHNOLOGY

Bluetooth zigbee

INTEGRATED AUTOMATION
SYSTEMS

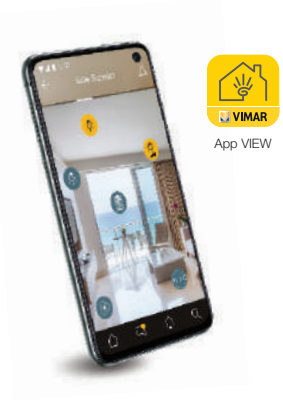

PRIVATE VILLA

Soluções escaláveis. **Sistemas de automação integrados**

By-me Plus é um dos principais sistemas da plataforma VIEW.
Com foco no conforto e na eficiência energética, permite ao utilizador controlar e efetuar a gestão integrada da iluminação, cortinas e persianas, controlar a temperatura e energia do edifício e do sistema de som multi-room.

Mais conforto.

Automação de cortinas e persianas, escurecimento da iluminação, sistema de som.
Gerir a iluminação e o sistema de som, mover as cortinas ou persianas, escurecer as lâmpadas ou criar jogos com luzes coloridas. Todos os cenários predefinidos com base nos requisitos do utilizador.

By-me Plus, instalação fácil e tecnologia avançada, com base em:
- Cabo de par trançado de barramento
- Topologia de cablagem linear, estrela e mista
- Controlo remoto via interfaces IP
- Extensível com dispositivos de radiofrequência.

By-me Plus is simple configuration and diagnostics, maintenance thanks to the VIEW Pro app.

By-me Plus, de configuração, manutenção e diagnóstico simples graças à App VIEW Pro.

Maior eficiência energética.

Gerir a energia de forma mais responsável com soluções evoluídas capazes de otimizar os consumos, sem perder qualidade, gerando poupanças até 50% (segundo estudo realizado pela Universidade Politécnica de Milão, Observatório IoT de acordo com a norma EN 15232).

Gestão de cargas para evitar apagões por sobrecarga e distribuição inteligente de energia solar.
Graças à possibilidade de visualização dos consumos, através da utilização da App à distância, o utilizador estará sempre a par do perfil energético da casa.

Controlo do clima de temperatura.
Supervisão energética de habitações com medição e visualização de consumos (inclusive consumos não digitais).

Gestão e otimização de energia.
A gestão inteligente da energia produzida por um sistema fotovoltaico é realizada automaticamente nos aparelhos já selecionados, reduzindo assim a quantidade de energia utilizada da rede.

Soluções escaláveis. **Sistemas integrados de automação**

Cada edifício tem as suas próprias necessidades especiais, desde as primeiras fases do projeto. Os sistemas de automação integrados aumentam o desempenho em termos de conforto e de poupança energética, tornando os edifícios mais inteligentes e prestigiosos. Os sistemas Vimar destacam-se pelo seu alto nível de **flexibilidade e escalabilidade**.

Fácil de configurar com o software profissional ETS distribuído pela KNX Association. Os dispositivos KNX para automação residencial podem ser operados em conjunto com todos os produtos de empresas que cumpram as normas de conformidade, garantindo um único sistema integrado que se liga ao mundo da IoT através de portas de entrada específicas ou servidores web IP.

Flexibilidade & escalabilidade.
- Integração com os dispositivos de controlo standard
- Dispositivos modulares com botões permutáveis e personalizáveis com uma ampla gama de símbolos
- Termóstatos táteis RGB para controlo de temperatura
- Leitor de controlo de acesso RFID com entradas / saídas programáveis
- Coordenação estética perfeita com Eikon, Arké e Plana

Vasta gama de produtos & funções.
- Controlo da temperatura
- Dimmers para controlo de iluminação e cenários
- Leitores de controlo de acesso RFID MIFARE
- Detetor de movimento para ligar a iluminação e economizar energia

Perfil Internacional.

Uma escolha ilimitada de padrões, módulos e tipos de instalação.

A energia positiva da Vimar vai mais longe: graças a uma vasta gama de tomadas e de controlos - em conformidade com as principais normas internacionais - associados à modularidade e versatilidade de instalação permitem a **criação de sistemas à medida**.

Soluções de gestão de energia compatíveis em mais de 100 países de todo o mundo.
Para dar resposta aos diferentes requisitos de instalação em diferentes países, as nossas gamas incluem uma enorme variedade de dispositivos que atendem às mais exigentes normas internacionais como também são bastante versáteis em modularidade e tipos de montagem.

Soluções versáteis e modulares para diferentes contextos de instalação.
Controlos modulares e tomadas de acordo com as normas Italianas, Inglesas, Francesas, Alemãs e Americanas. Placas de cobertura desde 1 até 21 módulos e multi-módulos, para instalação horizontal e vertical, que irão permitir personalizar a sua instalação com total segurança e de acordo com as normas internacionais.

Bespoke design.
Personal design

In responde to new interior design trends, Vimar offers the possibility of not only choosing premium new materials but also customizing wiring devices so that to realize dedicated aesthetic solutions to enhance and enrich the building.

To promote the identity of the building, cover plates can bear any type of logo, while controls and buttons can be customized based on the chosen functions. Symbols and wordings are laser engraved with the maximun precision on the surface choosing from an extensive gallery or supplied from the customer.

??????????????????????????????????Unrivalled purity in an astonishingly beautiful material: the crystal employed in Eikon Tactil is an unmistakable signature that exudes refinement while displaying extreme toughness. In four colour variants, to suit every style. The backlighting of the home automation system commands can also be personalised thanks to its RGB leds.

Características de montagem da Eikon Táctil

Instalação standard de 3 módulos

Suporte ultrafino.
Núcleo de aço de apenas 2 mm de espessura, com proteção galvanizada para instalação com destaque mínimo.

Controlos eletrónicos.
1, 2 e 3 módulos retro iluminados. Os controlos standard possuem retroiluminação âmbar quando instalados num sistema elétrico convencional. A retroiluminação pode ser programada com cores RGB quando montada nos sistemas de automação By-me ou Well-contact Plus.

Placa de cobertura.
Dimensões amplas e quadradas, de 2 a 4 módulos em materiais finos numa ampla gama de cores. cristal e em 4 cores: diamante branco, água, cinza pérola e diamante negro.

Sistema plack-clack.
O sistema Plack-clack patenteado pela Vimar, fixa rápida e facilmente os componentes do ponto de iluminação na placa de cobertura ao inserir e retirar os dispositivos pela parte frontal.

Etiquetas adesivas Mylar.
Os controlos podem ser personalizados utilizando as etiquetas adesivas em Mylar com uma variedade de símbolos, todos retroiluminados

ESCALA REAL 1/1

ORIGINAL

MATERIAIS

Oito abordagens diferentes para ser, viver e expressar luxo. As opções de estilo da Eikon Evo inspiram-se nas mais recentes abordagens do design de interiores, evocando as suas essências e interpretando-as de maneira original e pessoal através de combinações incomuns de materiais, cores e acabamentos. Proporcionando-lhe opções sobre como ser e estar.

Eikon Evo. Materials and finishes

Primari
(Anodized aluminium)

With their innate stylishness and unfailing allure, presences at once discreet and prestigious, lines both tasteful and confidently defined: discover the five different shades of anodized aluminium.

Esclusivi
(Refined aluminium)

Highly original appearances, noble personalities, irresistible appeal. Rare and therefore precious characters: the declensions of enhanced aluminium need only one glance to assert their priceless values.

Scolpiti
(Carved stone)

Strong, rigorous by nature, bold cuts without compromising richness and refinement: three basic character traits of worked stone.

Naturali
(Solid Wood)

Natural wood projects vitality and immediately transmits a pleasurable sensation of calm and warmth. Simple natural qualities.

Luminosi
(Bevelled crystal)

Purity and splendour like nothing else. Wrapped inside its luminous and delicate appearance lies unequalled vigour and strength: seven of the different treatments used on crystal.

Raffinati
(Natural leather)

Pure appeal. The delicate harmonious shapes highlight the marriage of sophistication with genuine naturalness. A beauty with a life of its own, immune to passing time, is evident in both these varieties of leather.

Speciali
(Corian®)

Innovation and intrinsic strength, this is a material that seduces through shining colours which signal its cutting-edge hi-tech content.

Essenziali (Total aluminium and crystal)

Clean and clear harmonies: four partnerships between aluminium with crystal, a quartet of elegant variations.

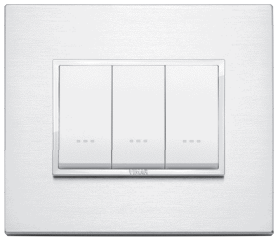

IMPERCETÍVEL

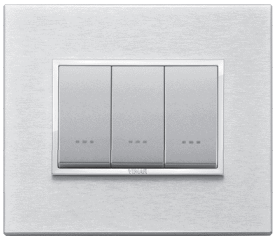

MATERIAIS

Uma silhueta impecável, levemente fina, destacando-se apenas alguns milímetros da parede devido aos seus controlos axiais. Vista de perfil, a Eikon Evo oferece uma presença subtilmente fascinante e intangível, em sintonia com as tendências atuais do design de interiores. Um ponto de comando de iluminação aérea com um efeito estranhamente suspenso. O design criado para a Eikon Evo em alumínio, madeira e Corian® cria uma sensação indescritível de distanciamento em relação a eventuais imperfeições na parede, evocando uma sensação de suspensão sublinhada pelos melhores materiais e acabamentos.

Características de montagem para Eikon Evo

Instalação com 71 mm de distância entre centros (Standard alemão e francês)

Estrutura de montagem ultra-plana com núcleo de metal.
Com apenas 2 mm de espessura, garante robustez, flexibilidade e isolamento elétrico. O núcleo de metal possui um revestimento antioxidante galvanizado e liga os dispositivos de forma rápida e fácil. Vasta gama de possibilidades de instalação devido aos 71 mm entre os centros.

Sistema plack-clack.
O sistema Plack-clack patenteado pela Vimar fixa rápida e facilmente os componentes do ponto de iluminação na placa de cobertura ao inserir e remover os dispositivos pela parte frontal

Botões permutáveis
Módulos de 1 e 2 botões, com símbolos retroiluminados e personalizáveis.

Informação técnica
No verso ao lado de cada terminal para informações funcionais, lateralmente para dados técnicos e comerciais.

Placas de cobertura multi-módulo
Vasta gama de espelhos, desde 2+2 até 2+2+2+2 módulos, para uma instalação vertical e horizontal segura e funcional.

Devido ao layout gráfico, as fotos dos produtos não são representadas com proporções equivalentes.

Transparencies and tricks of light. Unique details

Noce Americano
American Walnut
Eucalipto
Eucaliptus
Rovere
Oak

Tre diverse essenze naturali. La gradazione più chiara del **Rovere**, i toni caldi del **Noce Americano**, le screziature tipiche dell'**Eucalipto** / *Three different natural wood finishes. The lighter shade of* ***Oak****, the warm shades of* ***American Walnut*** *and the typical mottling of* ***Eucalyptus***

Bianco Matt
Matt White
Grigio Antracite
Anthracite Grey
Next
Next

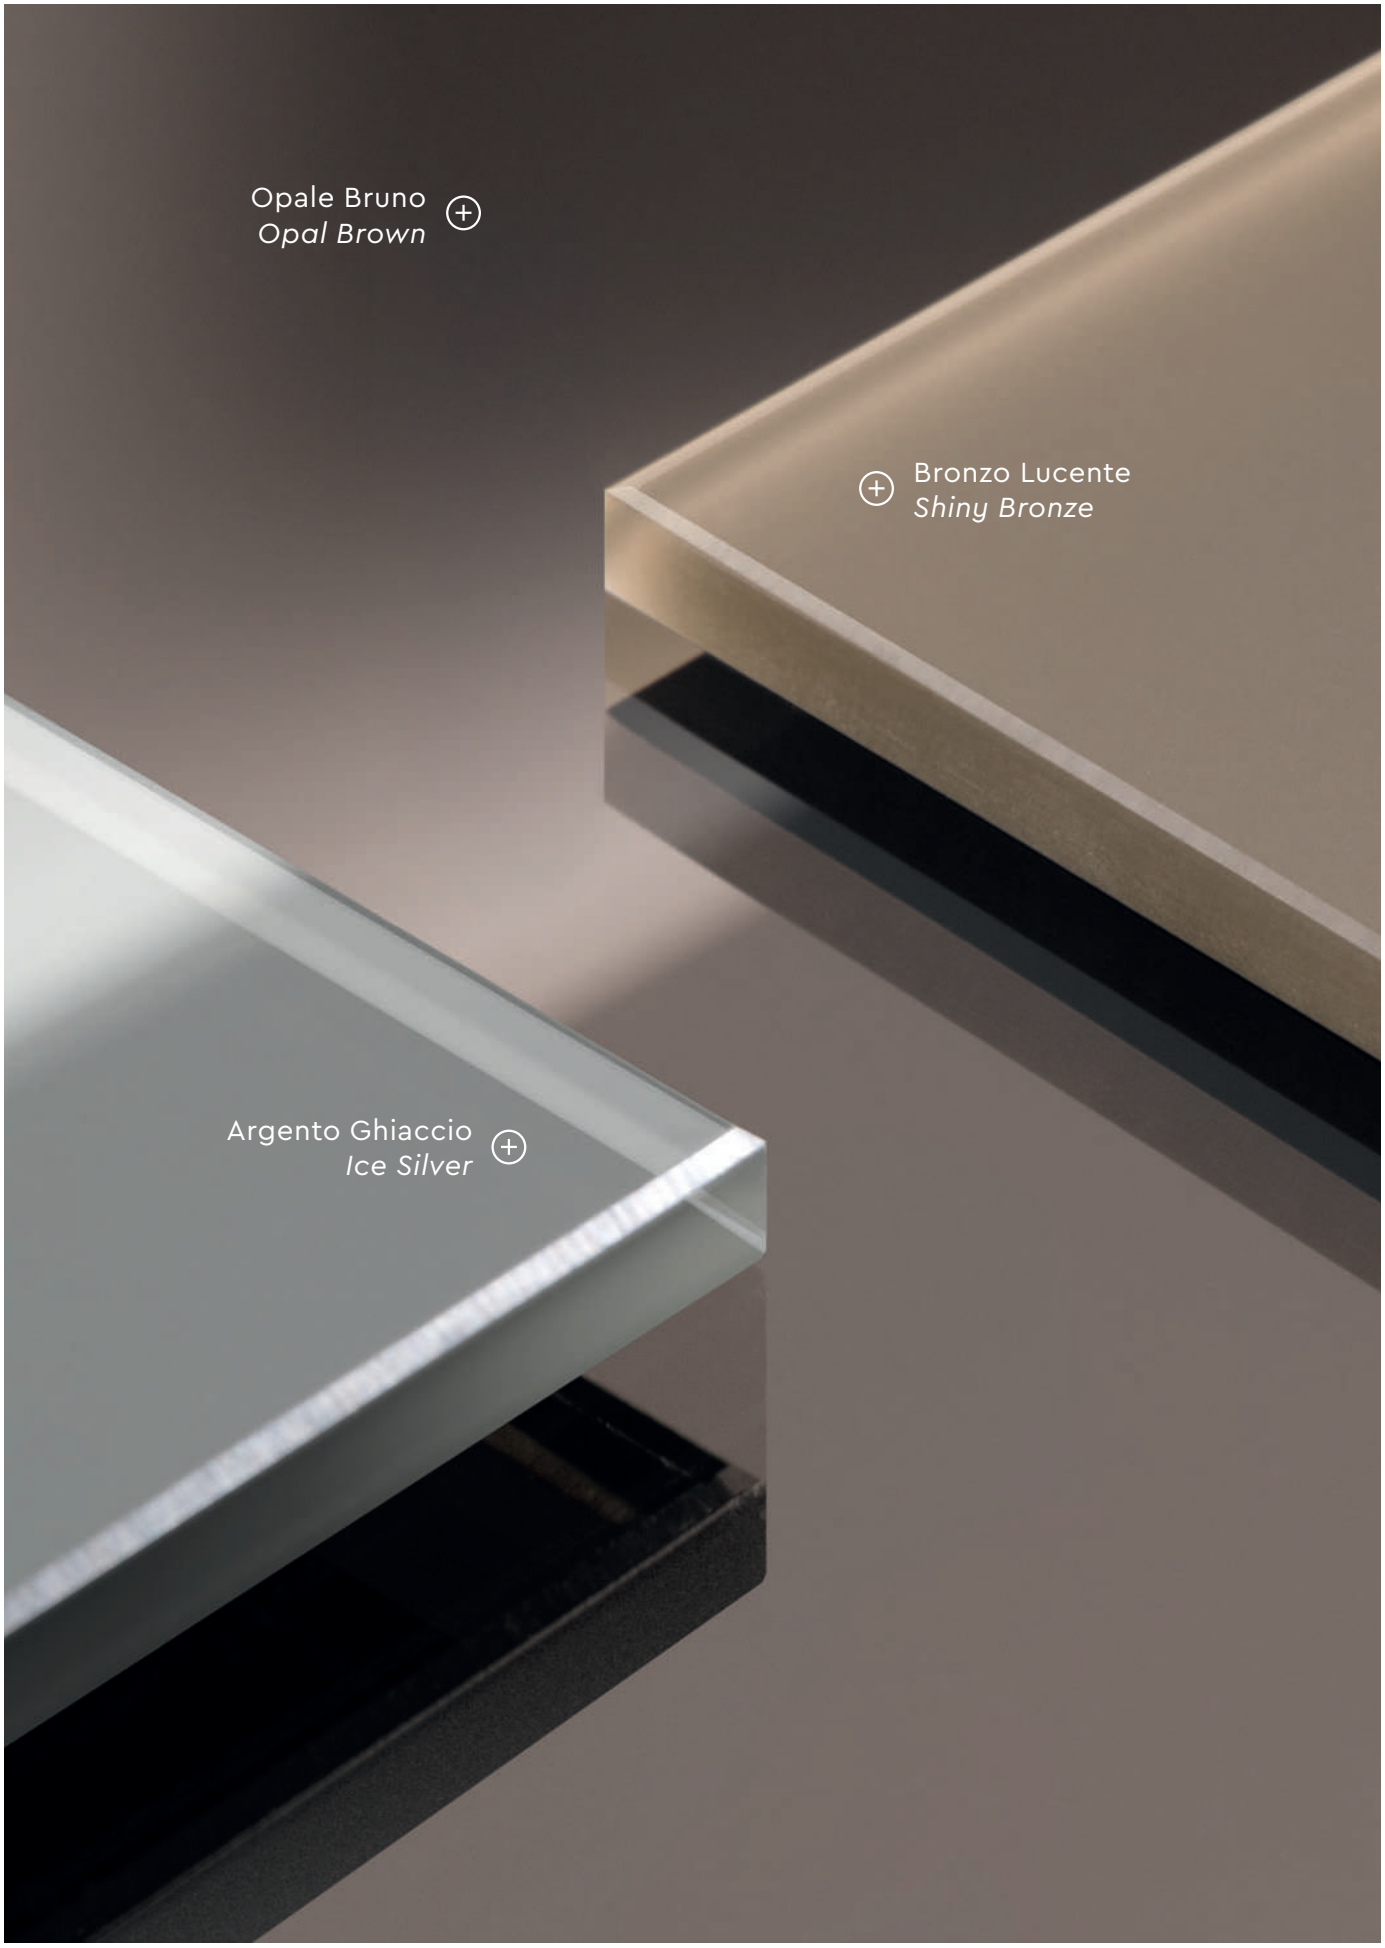

Tre diverse cromie senza tempo **Bianco Matt**, **Next** e **Grigio Antracite** per essere abbinate ai tasti dello stesso colore. Essenzialità allo stato puro / *Three timeless colours:* ***Matt White***, ***Next*** *and* ***Anthracite Grey*** *to match the buttons of the same colour. Simplicity in its purest form*

Coffee Brown
Coffee Brown
Nero Marquiña
Black Marquiña
Bianco Calacatta
White Calacatta

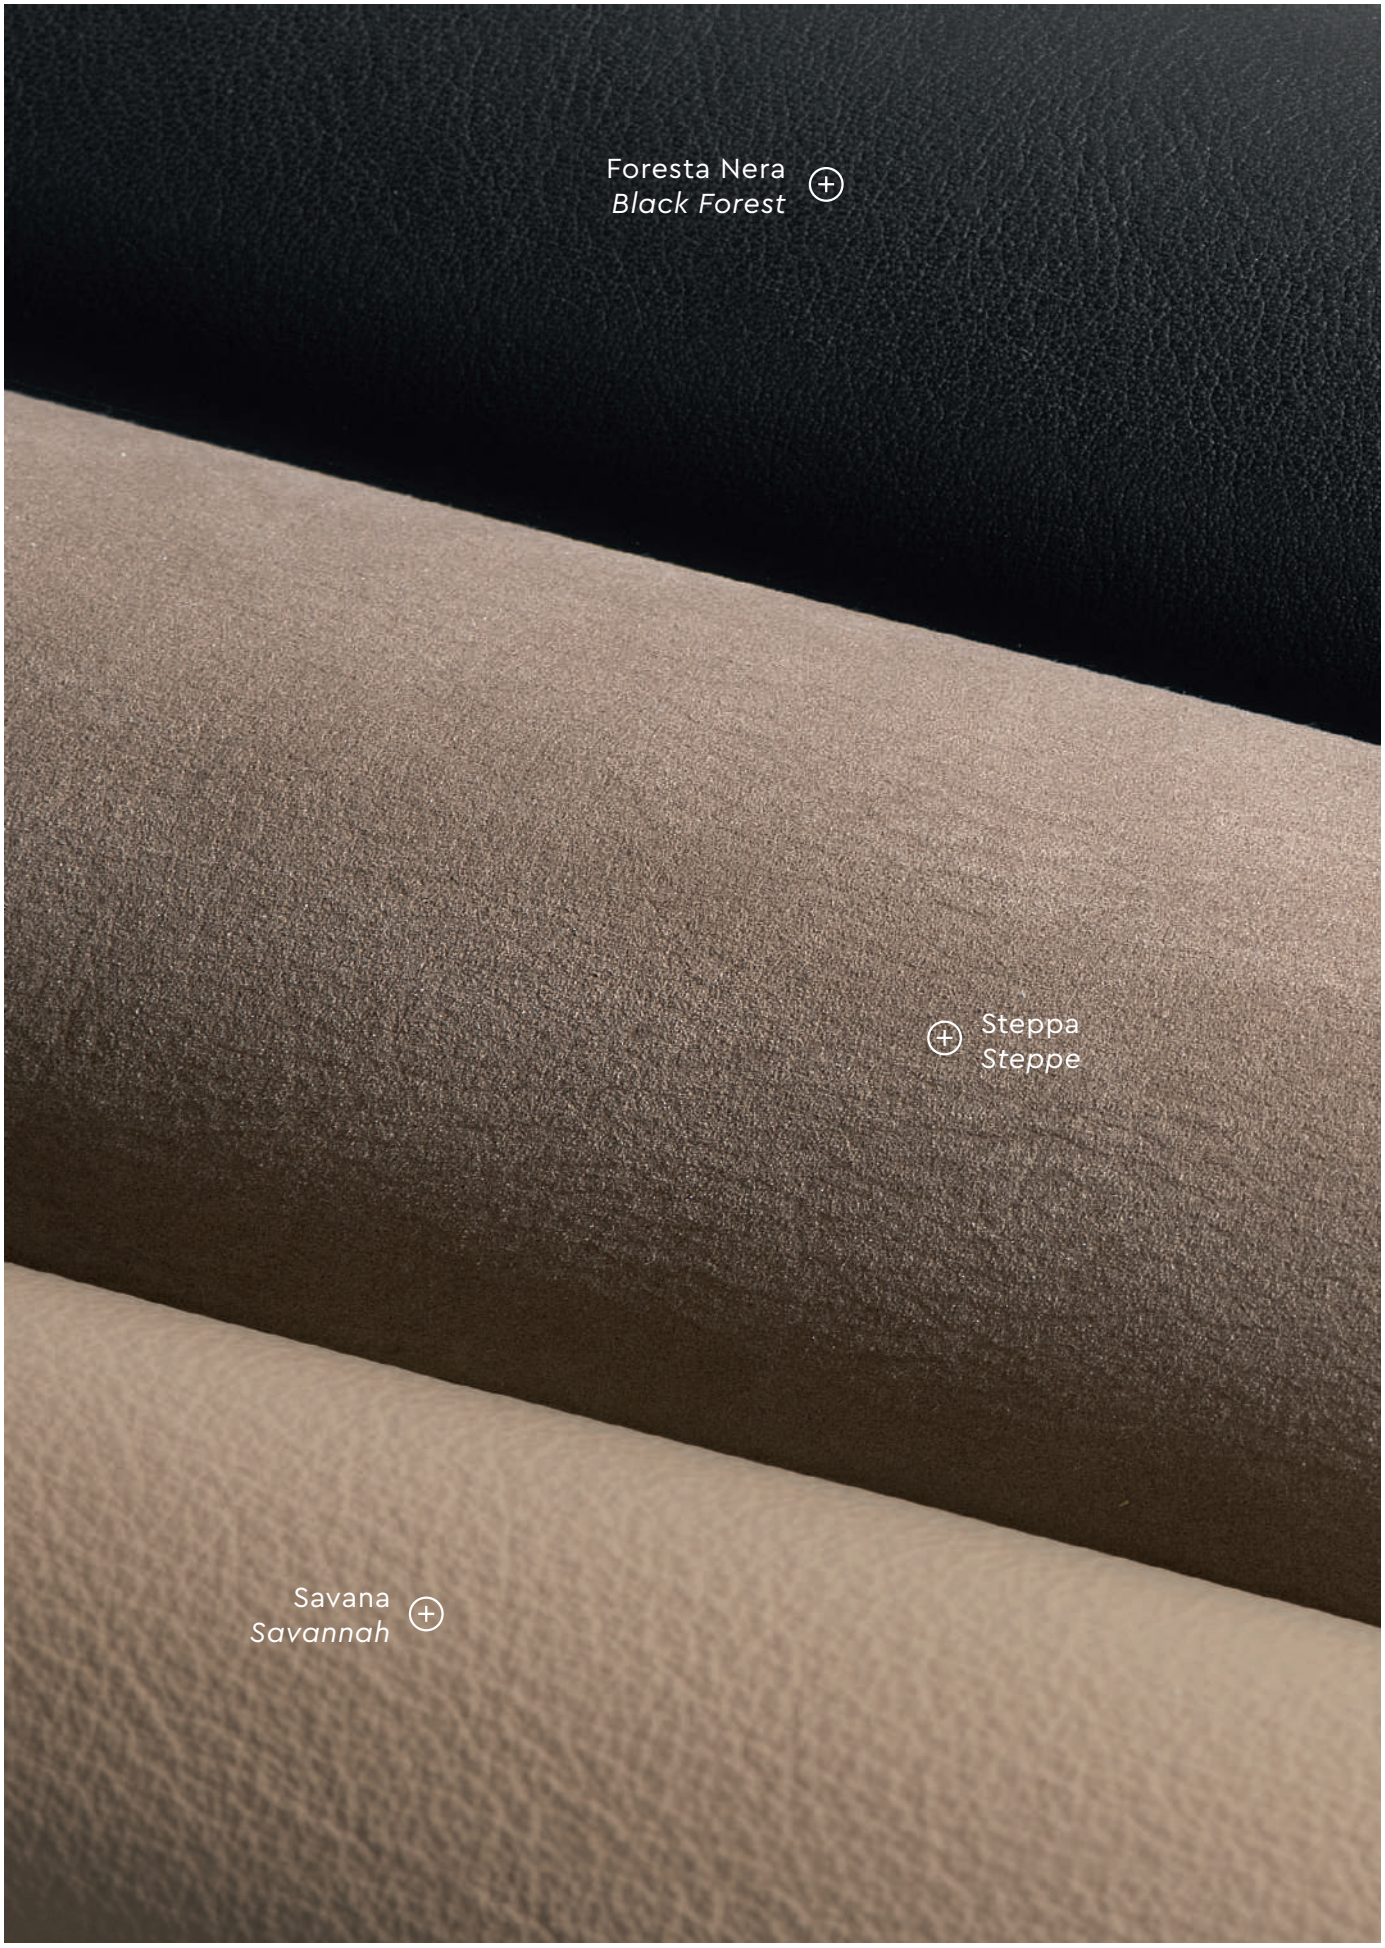

Massima qualità per un materiale che richiama le pietre più esclusive. **Bianco Calacatta** come il più bel marmo di Carrara;

Coffee Brown, tinta calda e venature dorate; **Nero Marquiña** potente come l'omonima pietra spagnola / *The ultimate quality for a material that recalls the most exclusive stones.* ***White Calacatta*** *like the finest Carrara marble;* ***Coffee Brown****, a warm colour with golden vein patterns;* ***Black Marquiña*** *just as powerful as the namesake Spanish stone*

Opale Bruno
Opal Brown
Bronzo Lucente
Shiny Bronze
Argento Ghiaccio
Ice Silver

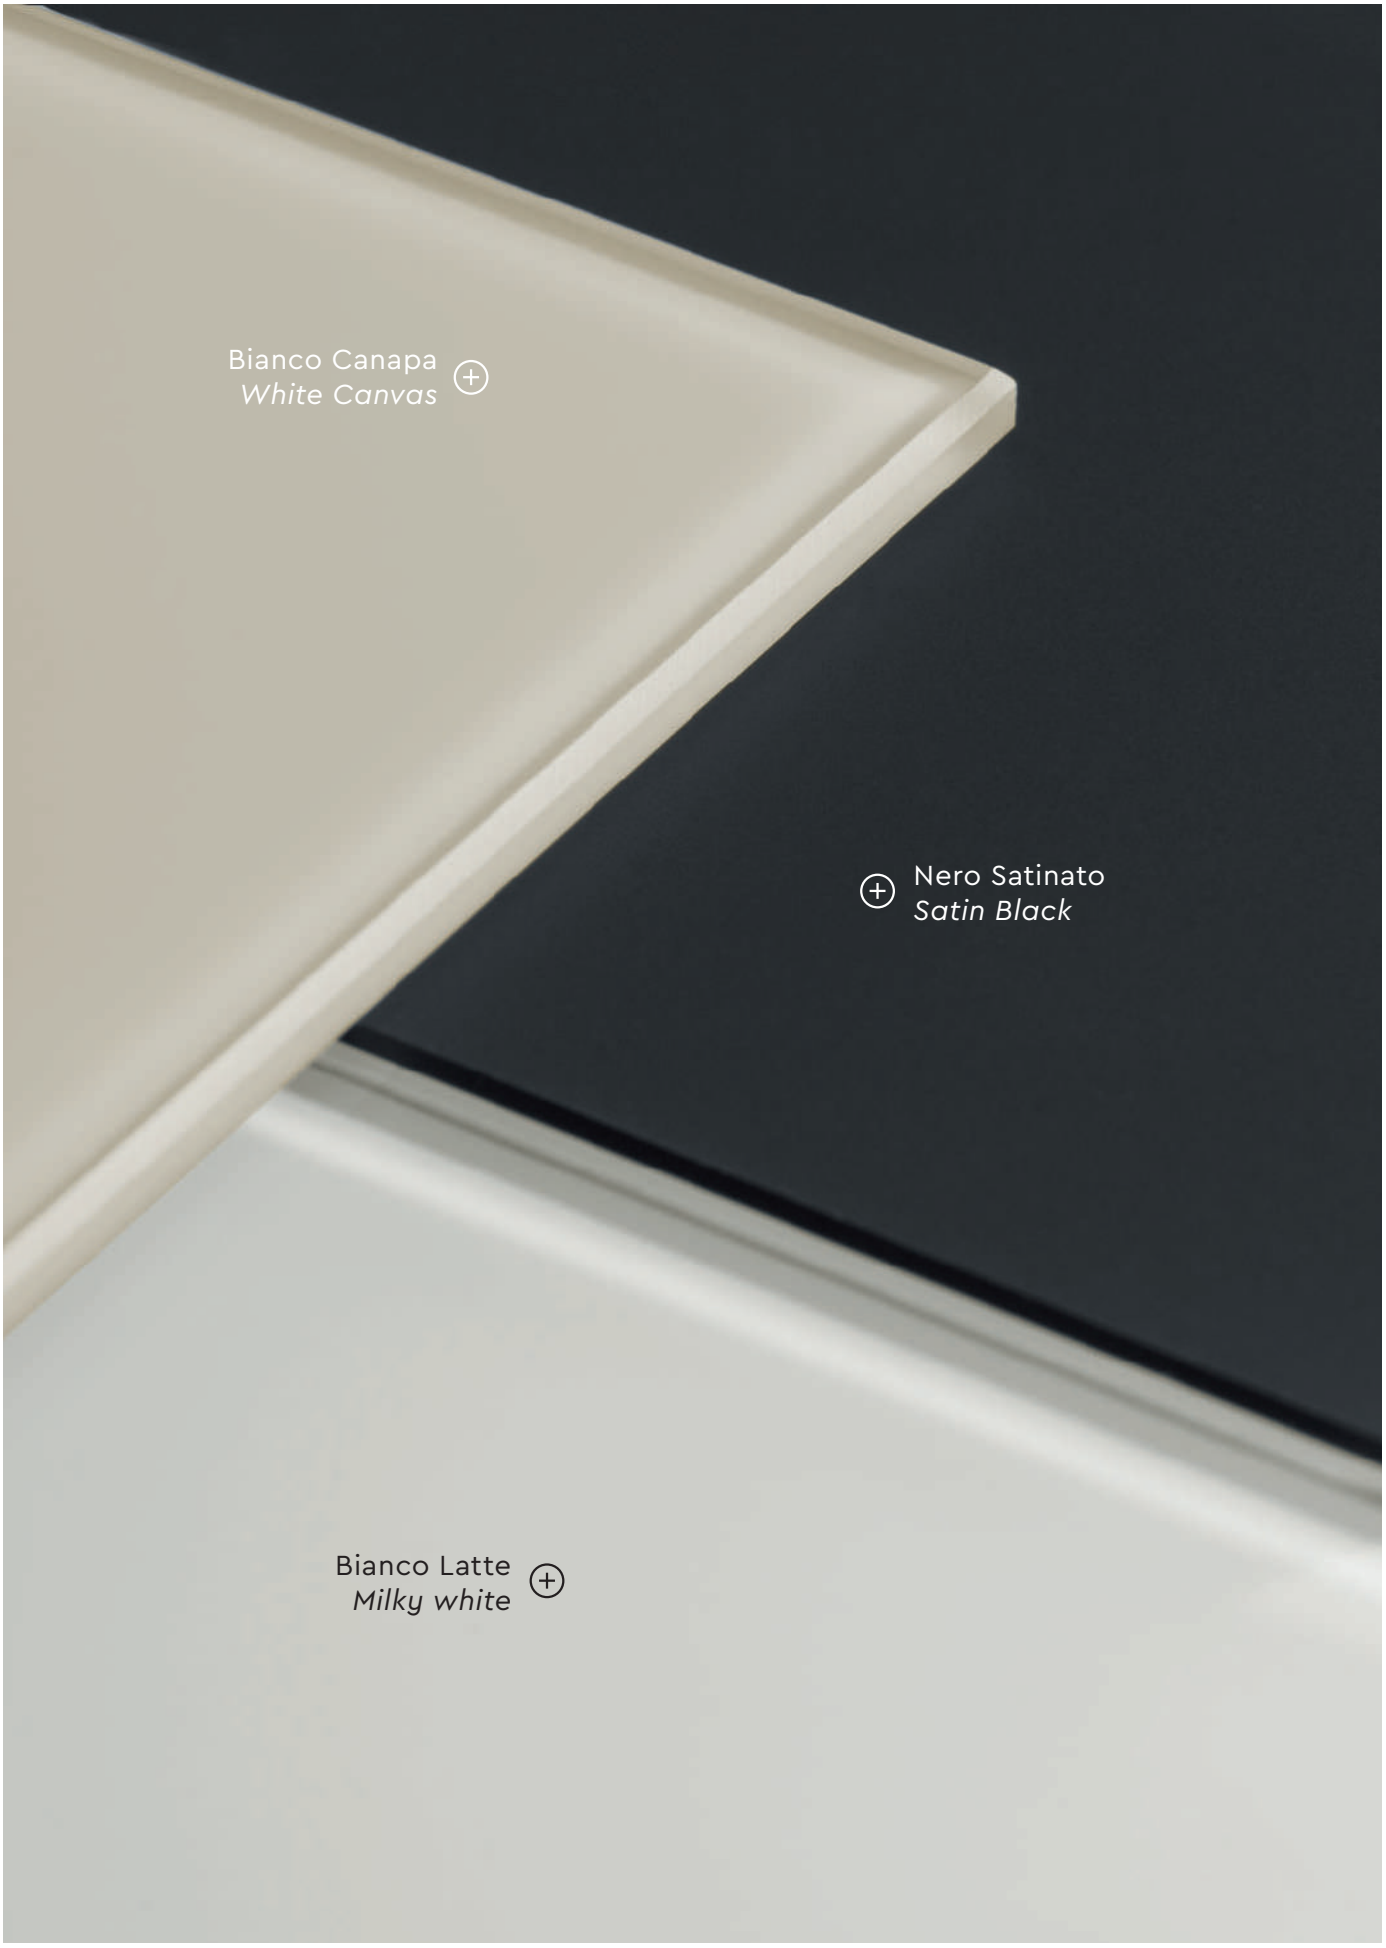

Superfici riflettenti esaltate da una molatura a filo lucido. Un accento tecnologico per la finitura **Argento Ghiaccio**, tonalità avvolgente per il **Bronzo Lucente**, tono caldo e finitura satinata per l'**Opale Bruno** / *Reflective surfaces emphasised by a polished edge flush-grinding process. A splash of technology for the* ***Ice Silver*** *finish, an enveloping hue for* ***Shiny Bronze****, and a warm tone and satin-finish for* ***Opal Brown***

Foresta Nera
Black Forest
Steppa
Steppe
Savana
Savannah

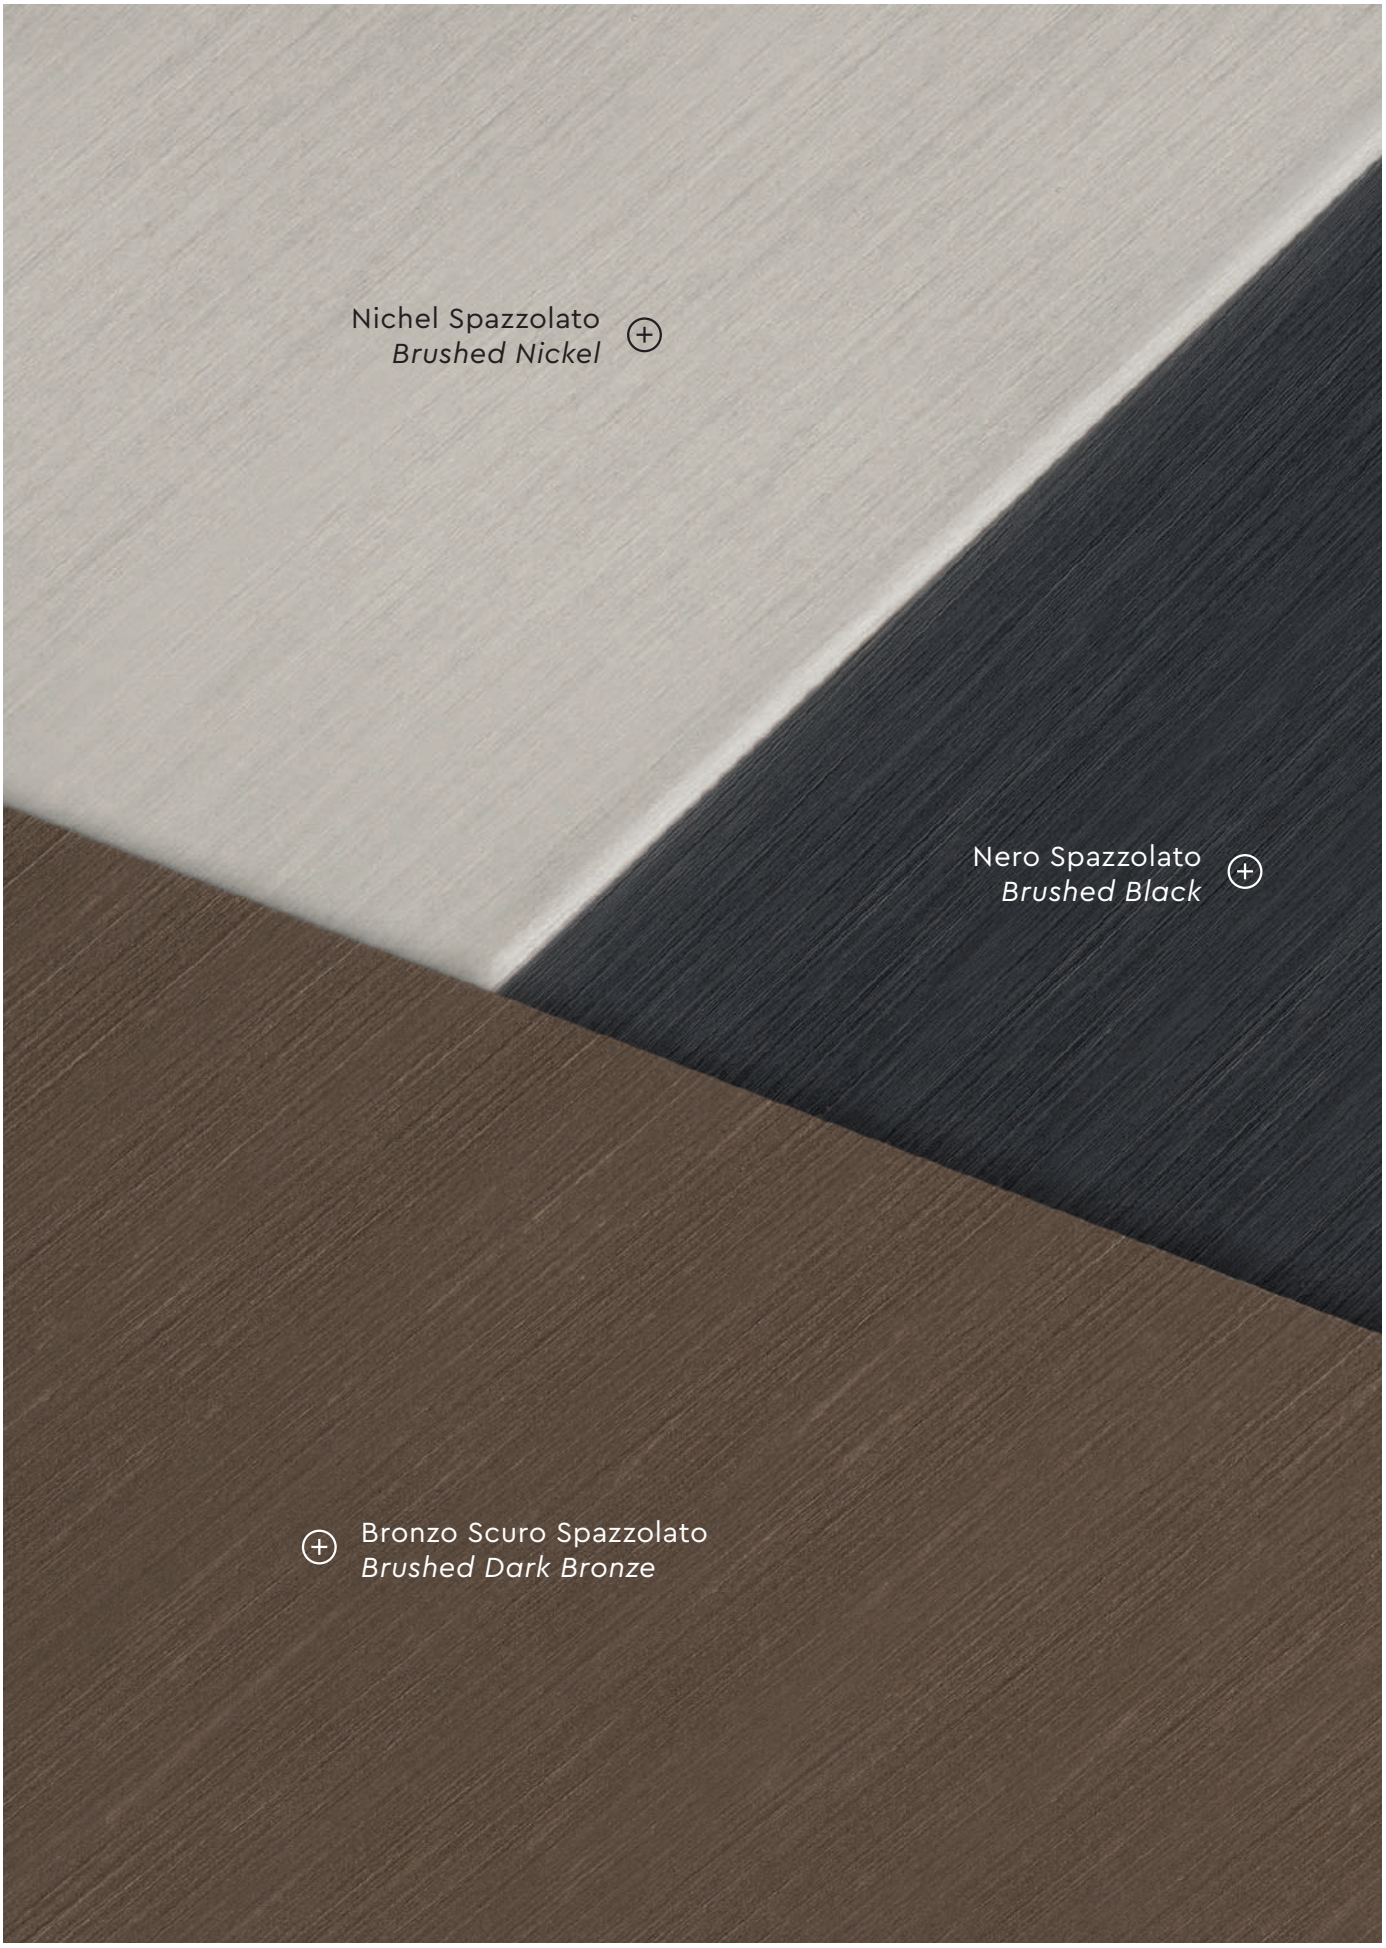

Tonalità classiche dall'elevata tattilità. **Savana** dall'aspetto naturale, **Steppa** più opaca e vellutata, **Foresta Nera** dalla grana fine e raffinata / *Classic tones with a highly tactile appeal.* ***Savannah*** *with its natural look, the more matt and velvety* **Steppe**, *and the fine grained and sophisticated* ***Black Forest***

Bianco Canapa
White Canvas
Nero Satinato
Satin Black
Bianco Latte
Milky white

Superfici retro-serigrafate e bordi molati a filo lucido in tre declinazioni. La classicità del **Bianco Latte**, il calore del **Bianco Canapa**, l'eleganza senza tempo del **Nero Satinato** */ Back-painted surface and flush-ground polished edges are available in three designs. The classic appeal of **Milky White**, the warmth of **Canvas White**, the timeless elegance of **Satin Black***

Nichel Spazzolato
Brushed Nickel
Nero Spazzolato
Brushed Black
Bronzo Scuro Spazzolato
Brushed Dark Bronze

La tattilità del materiale è esaltata da una delicata lavorazione della superficie per le tre proposte: **Nichel Spazzolato**, **Bronzo Scuro Spazzolato**, **Nero Spazzolato** */ The tactile nature of the material is enhanced by a delicate finish on the surfaces in three versions:* ***Brushed Nickel***, ***Brushed Dark Bronze***, ***Brushed Black***

Oro Antico
Antique Gold
Bronzo Antico Spazzolato
Antique Brushed Bronze
Rame Spazzolato
Brushed Copper

L'eleganza dell'**Oro Antico**, l'energia del **Rame Spazzolato** e i toni irregolari del **Bronzo Antico Spazzolato**. Per rispecchiare la ricercatezza degli ambienti / *The elegance of* ***Antique Gold****, the energy of* ***Brushed Copper*** *and the variegated shades of* ***Antique Brushed Bronze****. To reflect the elegance of the spaces*

Nichel
Nickel
Oro
Gold
Cromo Nero
Black Chrome

Una finitura lucida illumina la modernità del **Nichel**, valorizza il fascino dell'**Oro** e sottolinea il rigore estetico del **Cromo Nero** / *A shiny finish lights up the modern appeal of* ***Nickel****, shows off the charm of* ***Gold*** *and underscores the aesthetic accuracy of* ***Black Chrome***

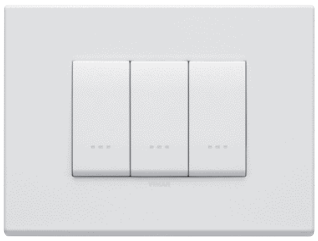

L'Essenza della Materia
The Essence of Material

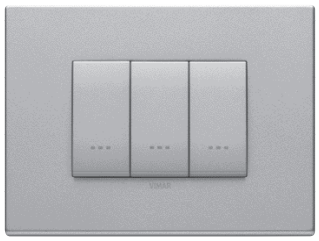

Materiali naturali e pregiati donano un inconfondibile effetto materico, definendo l'identità e la personalità di ogni finitura / *Fine natural materials provide an unmistakeable textured effect, defining the identity and personality of every finish*

Características de montagem para Eikon Exé

Instalação de 3 módulos

Placa de cobertura.
Dimensões amplas e quadradas, desde 2 até 7 e 4+4 módulos. Em materiais nobres numa ampla gama de cores

Informação técnica.
No verso ao lado de cada terminal para informações funcionais, lateralmente para dados técnicos e comerciais.

Botões permutáveis.
Módulos de 1, 2 e 3 botões, com símbolos retroiluminados e personalizáveis

Sistema plack-clack.
O sistema Plack-clack, patenteado pela Vimar, fixa rápida e facilmente os componentes do ponto de iluminação na placa de cobertura ao inserir e remover os dispositivos pela parte frontal

Símbolos de noite e dia.
Os controladores e as teclas são marcados com símbolos standard ou símbolos personalizados a pedido, gravados a laser na área específica retroiluminada com LEDs coloridos.

Suporte ultrafino.
Núcleo de aço de apenas 2 mm de espessura, com proteção galvanizada para instalação com destaque mínimo.

L'essenza del minimalismo
The essence of minimalism

La quintessenza della purezza e della linearità. La forma squadrata e planare dei comandi restituisce un piacevole effetto filo superfice, evidenziato dall'uniformità cromatica tra comandi e placca, in linea con i più attuali canoni stilistici. / The quintessence of purity and linearity. Planar and square-shaped controls give a pleasant flush-mounting effect, highlighted by the chromatic uniformity between controls and cover plates, in accordance with current stylistic canons.

La moderna essenza del retrò
The modern essence of retro

Le affascinanti linee del passato reinterpretate in chiave moderna regalano agli spazi un esclusivo stile un po' retrò. Il perfetto coordinamento cromatico tra comandi e placca offre un affascinante effetto total look. *Fascinating lines of the past reinterpreted in a modern way providing an exclusive and a bit retro style to all spaces. The perfect chromatic coordination between controls and cover results in a captivating total look effect.*

Mounting features for British standard

Modular devices mounting

Technical information
On the back next to each terminal for functional information, on the side for sales and technical data.

Interchangeable buttons
One or two modules, with backlit symbols and customizable.

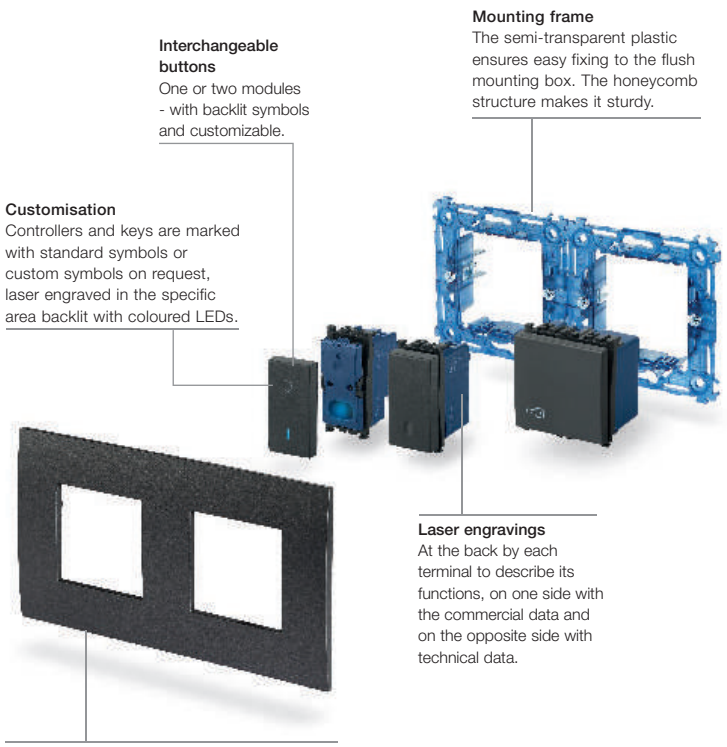

Cover plates
Wide range of colours and combinations.

Customisation
Controllers and keys are marked with standard symbols or custom symbols on request, laser engraved in the specific area backlit with coloured LEDs.

Lowered frame
Stainless steel mounting frame with earth terminal, with lugs for an easy and fast installation of the devices from the front.
Available also for 1 module with built-in blank module.

Mounting features

Installation with 71 mm between centres (German and French standards)

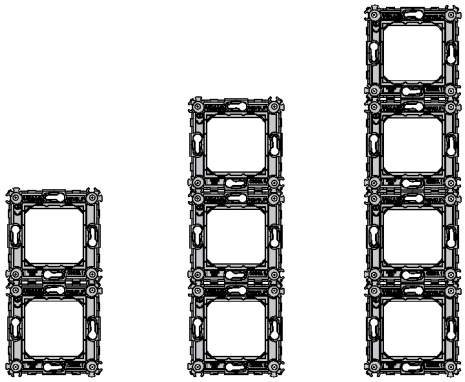

Interchangeable buttons
One or two modules - with backlit symbols and customizable.

Mounting frame
The semi-transparent plastic ensures easy fixing to the flush mounting box. The honeycomb structure makes it sturdy.

Customisation
Controllers and keys are marked with standard symbols or custom symbols on request, laser engraved in the specific area backlit with coloured LEDs.

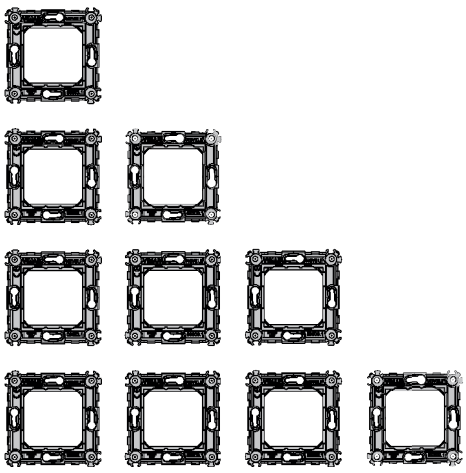

Laser engravings
At the back by each terminal to describe its functions, on one side with the commercial data and on the opposite side with technical data.

Multi-module cover plates
Wide range of cover plates, from 2+2 to 2+2+2+2 modules, for safe and functional vertical and horizontal installation for any country.

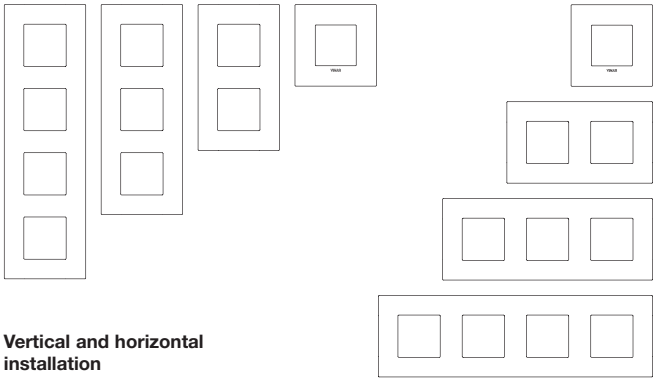

90°

Multigang switches can be used horizontally or vertically depending on specific needs of the space.

NEVE UP thermostat.
It’s smart and simple to control the temperature of your spaces.

Connected dial operated thermostat for management of the room temperature, it integrate the control of lighting, roller shutters and manage the consumptions, even in remote control by View app ot by voice control. Sleek design in a super-easy-to-use thermostat, a dial to adjust the temperature, 4 preset button for ON/OFF, °C/°F, summer/winter mode selection and display brightness adjustment.

- Available in black and white version.
- Intuitive, minimal and modern interface with backlit LED display.
- Convenient predefined rapid: ON/OFF, change of unit of measure, brightness adjustment, summer/winter change or programmable command.
- Without the need for a connection to a network, a **stand alone** version is also available.

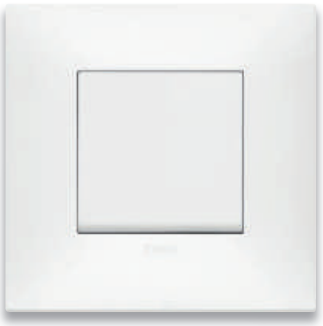

View app: everything is at hand.
You can manage, control and create favourite scenarios using the View app. Simply download it from the main stores, associate the Vimar gateway to the app and to the Wi-Fi network.

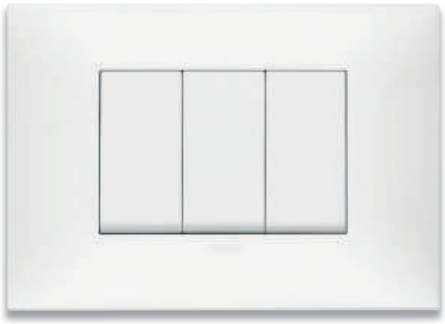

HOME

NEVE UP Free to change.
Flexible modular system installations.

Thanks to the many mounting frames available, ranging from 1 up to a maximum of 7 or 2+2+2+2 modules, control devices and socket outlets sized 1, 2, 3 modules, many solutions can be found for all installation needs. The lighting switch can be completed with the cover plate in the colour and material of your choice.

2 modules

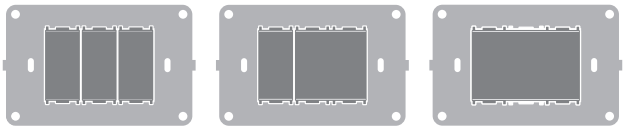

3 modules

Customization and backlighting
Backlit and customized switches are available both in white and carbon matt colours, to easily locate the switch and immediately know its function.

Modular devices
Combinations with 1, 2 and 3 module devices on 3 module mounting frames.

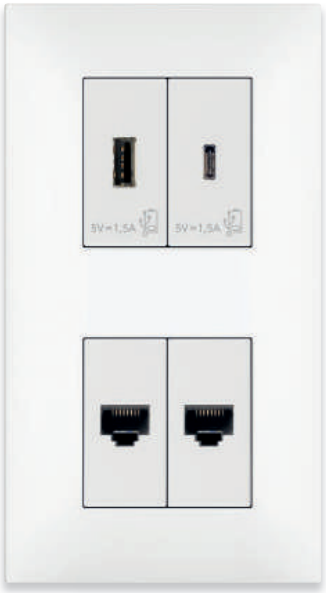

3 x 1 | 1 x 1 and 1 x 2 | 1 x 3

COVER PLATES + INTERCHANGEABLE SWITCHES + MOUNTING FRAME

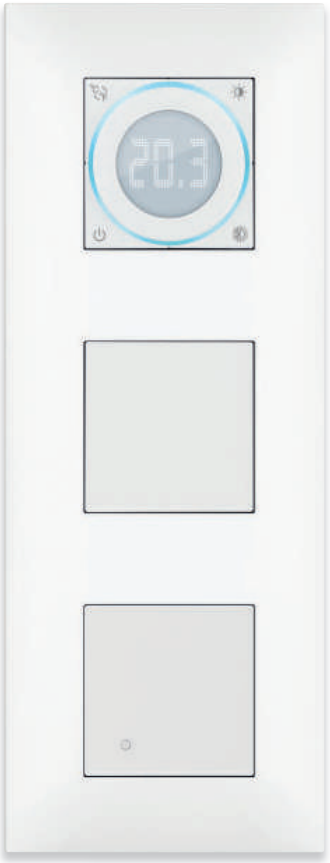

NEVE UP Free to change.
Flexible modular system installations.

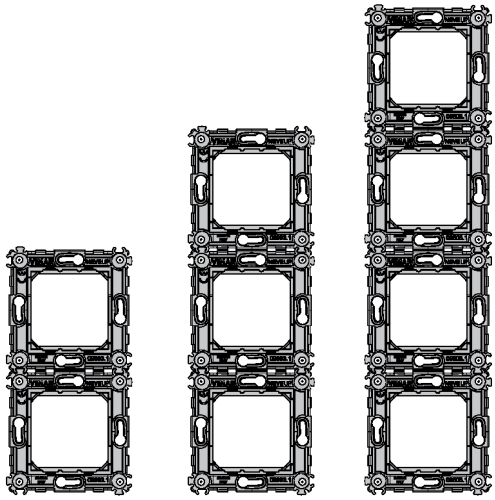

**Add and change functions over time,
depending on your specific living needs.**

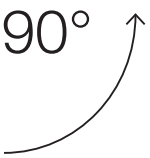

2+2 modules

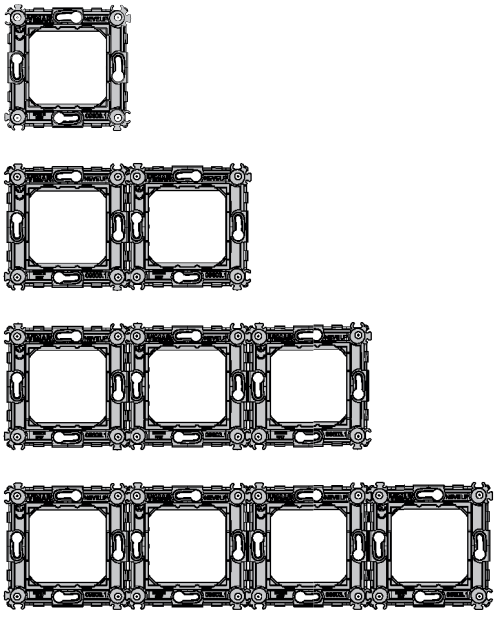

2+2+2 modules, vertical use

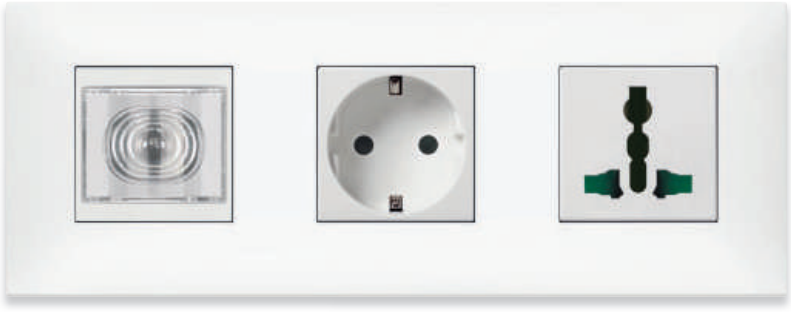

Multigang switches can be used horizontally or vertically depending on specific needs of the space.

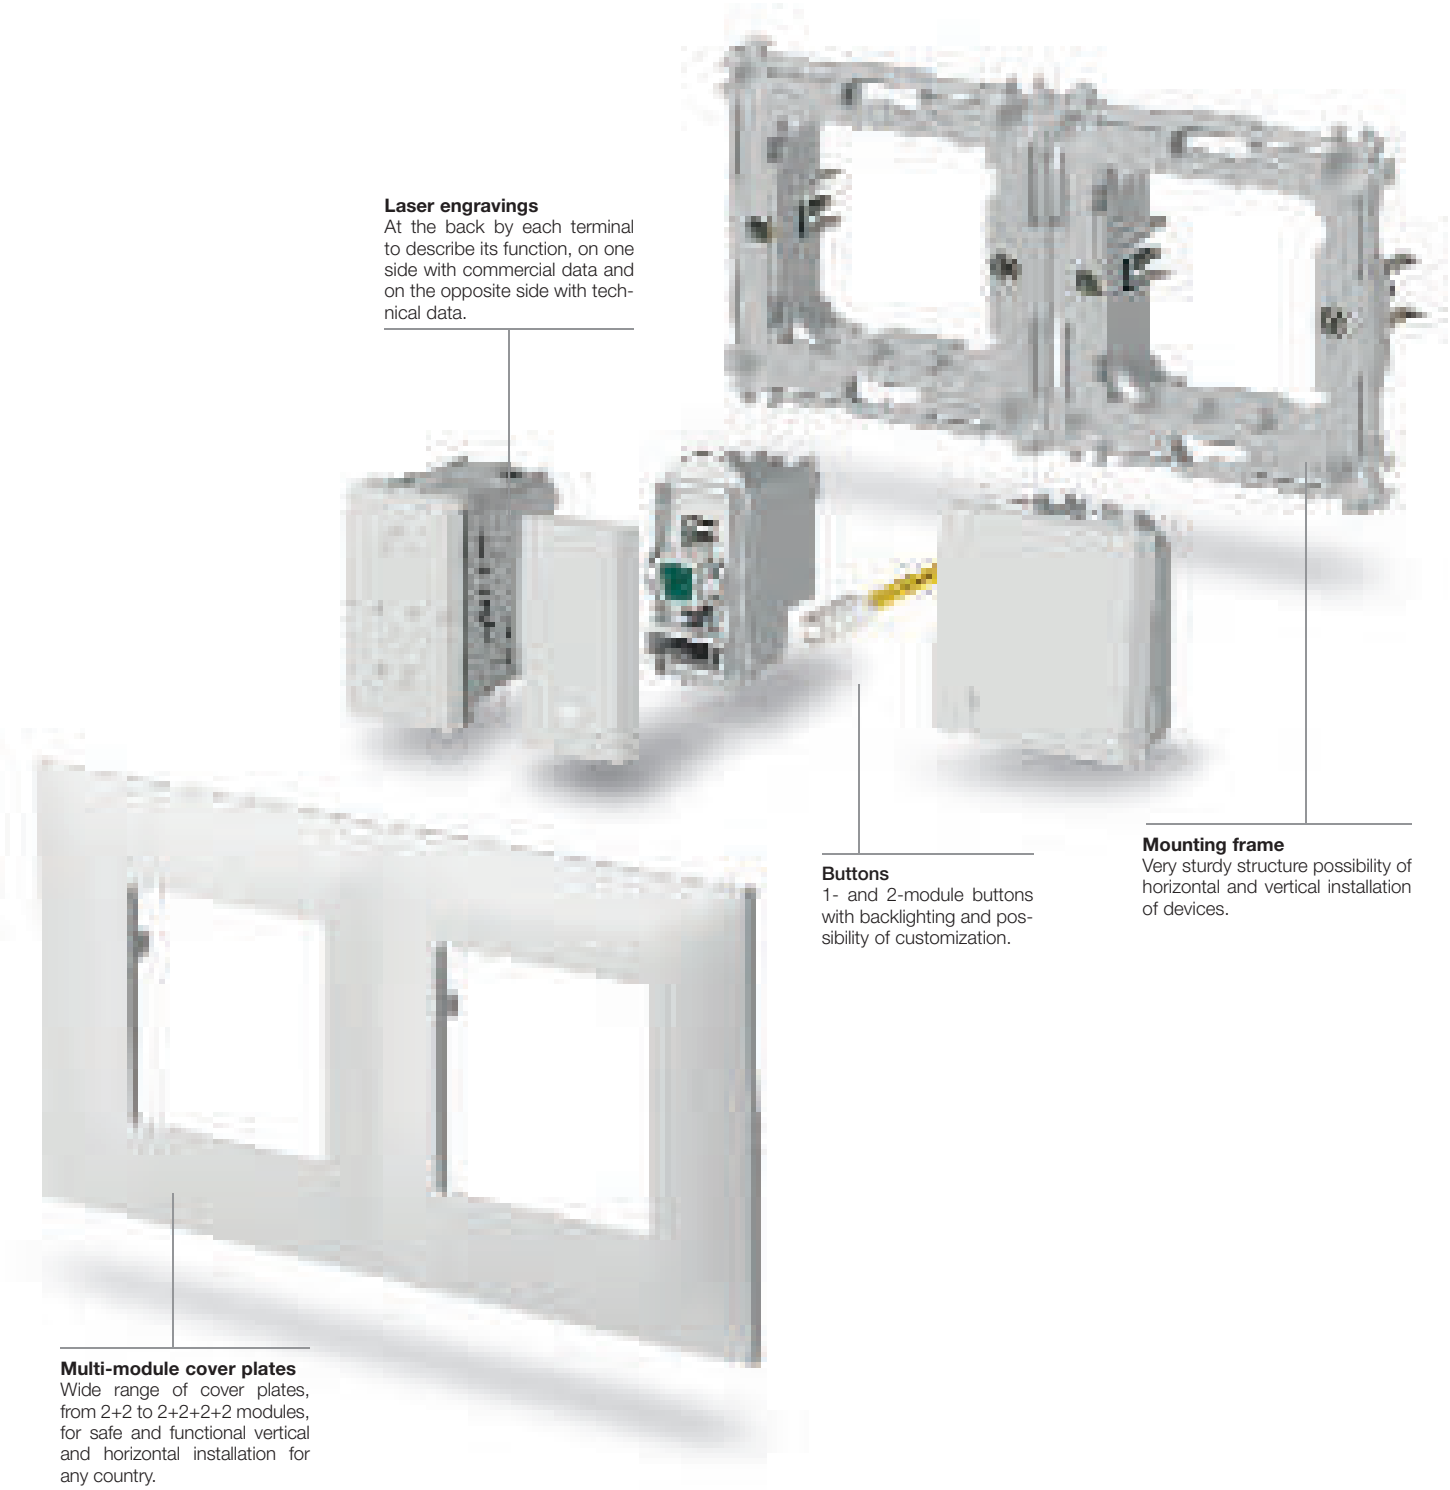

2+2+2 modules, horizontal use

Mounting features

German and French standards

Laser engravings
At the back by each terminal to describe its function, on one side with commercial data and on the opposite side with technical data.

Buttons
1- and 2-module buttons with backlighting and possibility of customization.

Mounting frame
Very sturdy structure possibility of horizontal and vertical installation of devices.

Multi-module cover plates
Wide range of cover plates, from 2+2 to 2+2+2+2 modules, for safe and functional vertical and horizontal installation for any country.

Due to the graphic layout, the product photos are not represented with equivalent proportions.

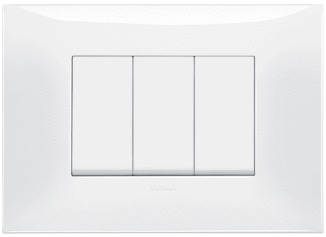

NEVE UP.
Easy tips for an advanced and connected smart installation

Easy installation in just a few steps.
If you have to build or renovate an area of the home or an entire dwelling, store, restaurant, office and in those situations where masonry work and repainting tasks need to be kept to a minimum. Enhance the value of the property and improving life for those who live there.

TWO **DESIGN**

THE RIGOUR OF CLASSICA AND THE CURVES OF RONDÒ, TAKE YOUR PICK.

There are those who love square lines and those who prefer softer shapes: with Idea, everyone is free to choose their own style. Two different shapes of cover plate and two colours for buttons and controls, in elegant anthracite grey or delicate white.

ESCALA REAL 1/1

BIG **CHOICE**

BUTTONS AND CONTROLS TO SUIT ANY INSTALLATION REQUIREMENT.

Free to compose your own lighting device: great modularity allows you to find the perfect solution for every setting.

And choose the control technology you prefer for your own practicality and comfort.

Modular controls.
Every space and every function has its own ideal control. From the minimal space for one module to a maximum of three for buttons.

Infrared management.
To operate lights and automations with the utmost precision with infrareds operated from the remote control, the best in comfort.

Automatic switch.
Switches on the lights as you walk by. And keeps them on for just as long as you wish. To save energy and move freely.

Functions where and how you want.

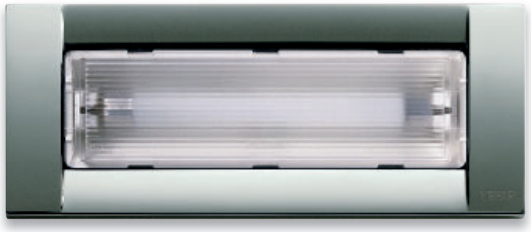

Door opener, lights, roller shutters: the controls you need are always to hand, framed by and elegant cover plate. With or without symbols that explain their function, they respond to any installation need.

RIGHT **LIGHT**

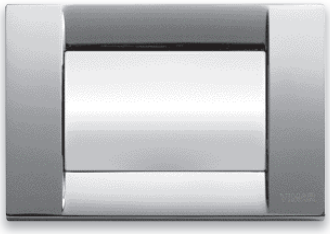

THEY MARK, INDICATE AND ILLUMINATE EVERY MOMENT OF THE DAY.

Soft lighting, bright lights, marker and emergency lighting, with Idea everyday actions are lit up impeccably. You can go from day to night, whenever and however you want, adjusting the intensity with simple and immediate gestures.

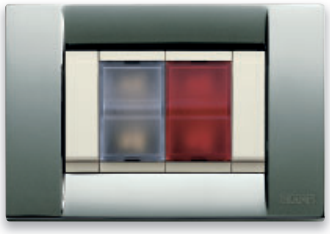

Emergency light.
If the power goes off, it comes on immediately. But if you prefer, you can use the version to install as a step light.

Modular lights.
LED lighting, ideal for lighting where you need: along a corridoror a staircase. You won't put a foot wrong!

Warning lights.
They tell you if the entrance gate is open or closed, if the garage light is on or off. All it takes is a glance.

TORCIA, hand lamp.

Ready immediately in the event of a blackout. It comes on automatically, lights your way in the dark, take it out and use it where you need. When the power comes back on, put it back in its place or in any other socket.

SWEET **ATMOSPHERE**

EACH TO HIS OWN CLIMATE, IN AN INSTANT.

Relax and a perfect temperature for every environment, quickly, just by typing in the four digits on the Idea timer-thermostat, as easy as a the simplest mobile phone. From your wake-up call until bedtime, spend your whole day in total well-being.

Touch thermostat.
To maintain the required temperature, in winter and in summer. It's as simple as you think.

Time delay switch for stair lights.
Set the amount of time the lights stay on for after you pass by. So you don't waste energy, and keep on saving.

Timer switch.
Lights and irrigation come on at the set time even when you're not a home.

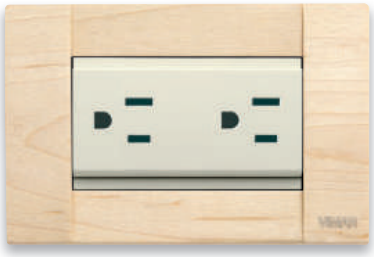

Touch timer-thermostat.
The temperature is programmed, supervised and modified quickly and easily.

EASY LIFE

ALL THE SAFETY FEATURES YOU NEED TO LIVE PEACEFULLY.

No thoughts or worries about your home and its occupants. Everything is protected by the anti-intrusion system and the Idea technical alarms. Whatever the anomaly, it warns and blocks in an instant, making you feel safe.

Socket with SICURY system.
A Vimar patent that guarantees top security for all the Idea sockets.

Interlocked socket.
To protect you from the hazard of an electric shock, in the bathroom and the kitchen.

By-alarm.
The burglar alarm system protects your entire home making you feel safe and calm.

Gas detector.
Immediately detects a methane or LPG leak. It gives off an acoustic and visual message to warn of the hazard. It instantly blocks the gas supply.

UNIVERSAL LANGUAGE

SOCKETS AND DEVICES THAT COMMUNICATE BEYOND BORDERS.

In contact with the world, any time, using the most advanced reception standards.
Idea guarantees a sure, fast and high-performing dialogue and universal compatibility.
Communication is ideal, the field
of installation incredibly vast.

Foreign standards.
The best Italian design serving foreign-standard controls and sockets.

TV-RD-SAT socket.
To receive audio, video, digital and satellite signals from around the world. and stay connected, always.

Freedom of installation.
Flush, surface or table mounting, in consumer units or panels. Modularity that adapts to any space.

Universal systems.

Wherever you are there's a socket to suit you. Energy overcomes all boundaries, travelling inside safe, efficient systems that are functional to your living needs. All dressed up in an unique style: the one made in Italy.

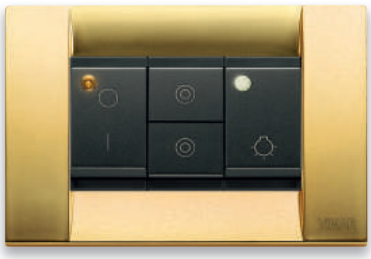

DISTINGUISHING **MARK**

A TOUCH OF CLASS, FOR A UNIQUE, INIMITABLE LOOK.

Laser-screen printed customised cover plates.

Controls with symbols or writing to describe their function, chosen from the Vimar library or bespoke, and all can be backlit. Details that underline personality and a precise idea of beauty.

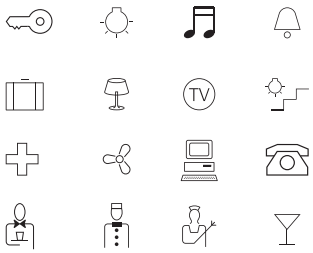

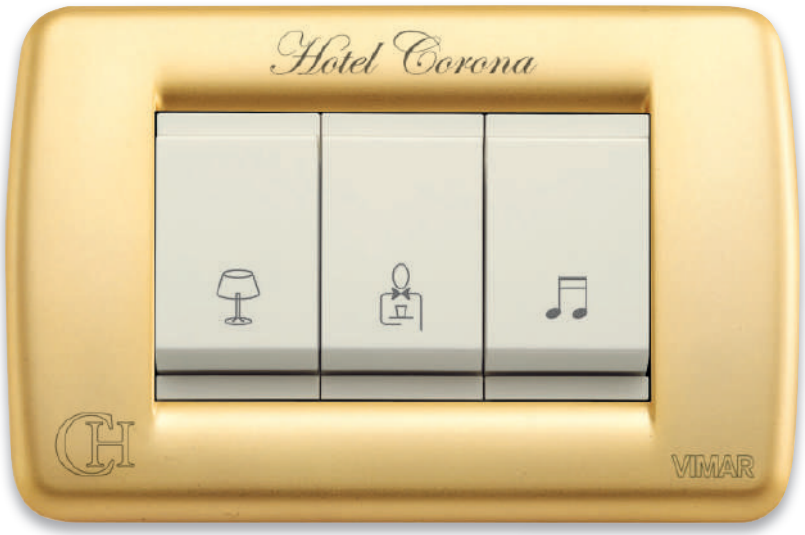

Backlighting.
With neon or fluorescent signalling units, each button can be backlit to enhance its function immediately, even in the dark.

Freedom of choice.
Laser engraving, indelible and timeless, with the highest definition. Idea moulds to suit your taste.

Library of symbols.
A range of icons with elegant lines that add character to the buttons and make the use of the controls even more immediate.

Customised service.

Hotels, health facilities, businesses: every professional activity can have cover plates marked with its own logo, with the tailor-made laser engraving service.

For rocker switches, infrared or buttons with various types of modularity. A small detail to underline your own character.

Two different button sizes, with or without symbols, all back-lit to customise your system even better.

MATERIALS & COLOURS

MANY COLOURS TO MATCH TO YOUR FAVOURITE COVER PLATE.

A wide selection, of materials first and foremost: wood, metal, silk, technopolymer, all available in various colours. Plates with warm and classic colours, with sophisticated hues and bright shades to match with anthracite grey or white buttons. With the greatest freedom of design choice.

INSTALLATION

The modular device with from 1 to 3 modules lets you install multiple devices of different modularity in a single mounting frame, up to a composition of 18 modules for cover plates size 6+6+6. The mounting frame that installs the devices is equipped with interlocking teeth that provide strong and reliable fixing for each single device and allows perfect alignment between devices such as to create an orderly and visually pleasing stylistic effect.

Reduced module

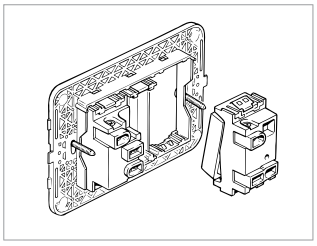

The most important functions are realized also with a reduced module to have 2 appliances or 1 appliance sized 2 modules in ø 60 mm or in square mounting boxes.

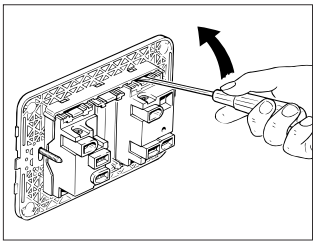

1 reduced module

2 reduced modules

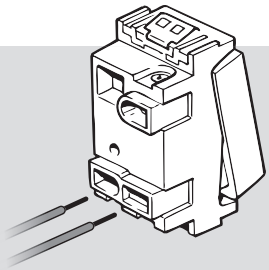

Device fixing and removing

Fixing from rear of the mounting frame.

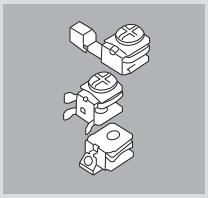

Removal with use of a tool, possible also from the front of the device.

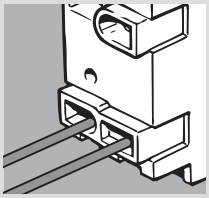

Wiring with screw clamps.

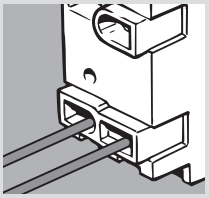

All Idea devices use traditional wiring with screw clamps which consists of clamps with a curved metal plate that locks the cable via a crosshead screw and is ideal for flexible or semi-rigid cables with a cross-section of from 0,5 mm² to 2,5 mm².

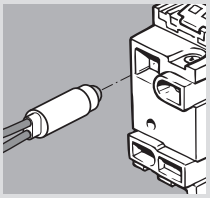

Screw clamps.
Composed of a curved metal plate that clamps the cable by means of a crosshead screw.

Use of cables with different cross-sections.
Wiring with a flexible or semi-rigid cable with a cross-section of from 0,5 mm² to 2,5 mm².

Technical information.
On the back next to each terminal for functional information, on the side for sales and technical data.

Special housing for the signalling unit.
Special housing for the signalling unit, backlighting and visibility of controls even in the dark.

Metal cover plate with shiny silver controls: technological design.

ESCALA REAL 1/1

EASY CONTROL

INTERCHANGEABLE CONTROLS OFFER GREAT FREEDOM OF INSTALLATION.

Marked by essential lines, the keys come in different sizes: one, two or three modules, to suit all demands. And different types of controls, from infrared to remote controlled, allowing you to control all functions with the highest standards of functionality.

Special controls.
Controls with specific, special functions, responding to every need.

Touch screen.
All the devices in a room or throughout the home can be activated and controlled simply by touching the screen.

Radiofrequency.
Wireless and battery-less controls based on green technology, offering full flexibility for new installations and system extensions without needing any masonry work.

Infrared.
Controls that detect the presence of people in a room and automatically activate the various functions.

Interchangeable buttons.
With one, two or three modules, laser-engraved icons indicating the function associated to the control, replaced quickly and easily on the hook-on mechanism. Functional versatility for a practically infinite choice.

ENERGY DISTRIBUTION

SAFE, MODULAR SOCKET MEETING INTERNATIONAL STANDARDS.

The best in reliability and safety: Plana socket outlets are all fitted with SICURY shutters, Vimar's patent granted free of charge to all manufacturers, preventing accidental contact with live parts. Of different types responding to different needs, the socket outlets are available in the most common international standards, and their high modularity makes it possible to install them in different compositions.

International standards.
Plana speaks a universal language: sockets are available in the most common international standards, guaranteeing safe connections anywhere in the world.

Dedicated sockets.
Intuitive use and top safety:
each colour corresponds to the connection to a specific electrical line, guaranteeing output continuity.

Modularity.

One, two or three modules and different types, responding to every functional need. Great versatility,
for a wide range of installation solutions.

PERFECT WELCOME

ADVANCED, CONTEMPORARY AND EASY-TO-COORDINATE VIDEO DOOR ENTRY SOLUTIONS.

Whatever your installation needs. Plana has a high-performing video door entry solution for you, a perfect blend of design, technology and functionality.

With no compromise.

Flush mounting video door entry unit.
An elegant, modern video door entry unit with colour display and swipe controls. Can be customised with any Plana cover plate and completed with a home automation supervision module.

TAB: surface mounting video door entry unit.
A series of video door entry units with a minimalist style: simple lines, ultra-thin profiles, capacitive keypad and user friendly controls, in both hands-free and handset versions. Reflex finishes that coordinate perfectly with the style of Plana.

Full Flat video touch screen.
The video touch screen with 4,3” colour display ensures the full management of all video door entry functions, offering a high-definition image of the person at the door and full control of the home automation system.

PERSONAL SOUND

EXCEPTIONAL MUSICAL PERFORMANCES PLAYING IN EVERY ROOM.

A system of the highest digital audio quality managing up to 4 independent music sources, allowing you to listen to classical music in the kitchen, pop hits in the bedroom and the radio in the bathroom.
Compatible with Mp3 players, iPods and iPhones.

USB socket outlets
They enable fast charging for portable electronic devices such as smartphones, tablets, MP3 players and GPS navigators.

Speakers.
Flush mounting, 3 and 8 modules, or surface mounting, with closed volume and bass reflex technology, for excellent playback with no distortion.

Multimediality.
Connect any external music source to the system, as well as TV sockets, PC, USB: your home will always be connected to your favourite media.

Intercom calls.
Intuitive controls, designed down to the finest detail, for communicating with every room in the building and managing the audio monitoring function.

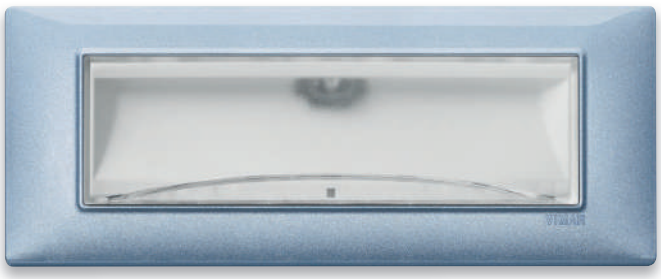

Touch screen.
Easy supervision of musical programming
in every room: at the touch of a finger.
Control becomes intuitive and total.

LIGHTS EVERYWHERE

A REASSURING PRESENCE DURING THE DAY AND AT NIGHT.

Lighting creates the emotional space of a home, and with Plana this space becomes intelligent.
Soft, intense, emergency lighting, signalling, automatic:
lighting is managed where and when you prefer or where it is required. Even in the dark or during a black out.

Emergency lighting.
Safety and style are the bywords for the lamps that automatically come on in a power cut, guiding you step by step towards the exit.

Modular lights.
LED lights, ideal step markers, come on automatically in the event of an emergency or when you want them to.

Warning lights.
Single, double or prismatic, indicate a gate open or an outside light left on.

Furnishing with light.
LED RGB technology and the style of Plana, the winning combination for furnishing any room with your favourite colours, without compromising on the elegant and minimalist design of the cover plates.

TORCIA, hand lamp.
Turns on immediately in the event of a black out and becomes a hand lamp to help you find your way even in the dark. When the power comes back on, you put it back into any socket, handy for use at any time.

SAFETY FIRST!

SOPHISTICATED, SILENT TECHNOLOGIES WATCHING OVER YOU 24-7.

Plana allows you to sleep in peace: technical alarms are triggered in the event of gas and water leaks, power surges, black outs or if intruders are detected.

What's more, the video control system watches over every room in the home.

Interlocked socket.
The most simple mechanism to protect you from the hazard of an electric shock, in the bathroom and the kitchen.

Video surveillance.
Elegant indoor cameras discreetly monitor every room, keeping everything under control.

Access control.
For reliable and flexible access control in offices, hotels and SPA/gyms, where it is necessary to control the flow of person can access to the building.

Gas detector.

Signals, blocks the supply and sends a warning: in a nutshell, it watches over your safety, night and day. With an ultra-precise technology that is particularly sensitive to gas leaks. Allowing you to sleep soundly.

By-alarm: burglar alarm.
Protecting spaces from intrusion, in both residential and small-scale business contexts, is now even easier and more intuitive. Stand-alone and expandable with a vast array of devices, the By-alarm system stands out due to its high performance levels and its connection with the user (via GSM or via IP) and surveillance bodies (via SIA and CONTACT-ID protocols), as well as its integrability with By-me home automation.

CCTV.
The surveillance system ensures greater security by means a wide range of products and technology.
IP and AHD technologies guarantee even higher performance levels for the monitoring in critical areas, AHD 1080p, 3 to 4 Mpx IP and 5 Mpx IP cameras combine the high resolution and an easy installation with automatic configuration of the entire system and the new video coding of the H.265 compression complete the range with a greater data streaming rates.

EXTRA COMFORT

THE PLEASURE OF CHOOSING THE RIGHT ATMOSPHERE FOR ANY TIME OF THE DAY.

Plana transforms your home into an oasis of well-being: from when you wake up in the morning to the temperature you want to come home to at the end of the day. You can set your preferred climate in every room, managing settings and changing them to suit your needs.

Timer-thermostats and thermostats.
With touch display and RGB backlighting to control the temperature in every room and check the consumptions of the whole building.

Advanced climate control.
At the slightest change in temperature or humidity, the relative electronic sensors send the data to the climate control devices, which automatically intervene to optimise the loads according to the environmental conditions, and to prevent condensation in underfloor heating systems.

App By-clima

App By-clima.
The intuitive App makes it possible to remotely control the Wi-Fi and GSM surface mounting devices from your smartphone, allowing you to rapidly set the flush mounting devices by sending an audio signal.

Intelligent energy management.
With Plana, energy management is intelligent.
You can view the energy consumed by individual loads and throughout the entire building, including non-electrical measurements such as cubic metres of water and gas. And if a photovoltaic system is installed, the electricity produced during daylight can be automatically sent to selected household appliances, reducing mains electricity consumption and ensuring the most efficient self-produced consumption.

YOUR STYLE

EVERY DEVICE IS MADE TO MEASURE TO SUIT YOUR PERSONAL NEEDS.

Plana cover plates come in four materials and a wide range of colours, and can be embellished with laser-engraved with logos. Every button can be customised with symbols and day and night back lighting, to make their function even clearer.

Backlighting.
Disk, ring or symbol backlit: choose the lighting you prefer.
The controls are visible night and day.

Freedom of choice.
Plana can be customised to suit your tastes and needs: **laser engraving, indelible and long lasting, with maximum definition**.

Library of symbols.
A wide range of icons with minimal markings to customise the buttons and make the use of the controls even more immediate.

Made-to-measure controls.

Managing your whole home with minimum effort is one of the objectives the Plana technology sets out to achieve. This is why you can choose from rocker, infrared and remote, to give everyone the type of control they need.

Three different button sizes, with or without symbols, all back-lit to customise your system even better.

HOME AUTOMATION

INNOVATIVE SOLUTIONS FOR EFFECTIVE AND EFFICIENT HOME MANAGEMENT.

The evolved solutions of Plana offer a concrete response to the different needs of designers, installers and home owners, making a welcoming home also an intelligent one.

Control

Comfort

Energy Efficiency

Safety

Supervision.
All home functions, from climate control to lighting to the intrusion detection system and energy management, can be controlled centrally from a single control point, such as a touch screen with simple and intuitive interfaces.

Climate control.
Thermostats and electronic probes precisely control the temperature, managing both underfloor and fan-coil systems to ensure full comfort.

Energy management.
Controlling loads and energy produced leads to greater awareness of energy efficiency.

Environmental safety.
Life at home is even safer, with technical alarms that signal any gas or water leaks and other faults and every load is controlled in order to switch off those as low priority so the appliances of the home are protected from power failures.

by-me home automation

Intelligent and intuitive, By-me is the home automation system for the integrated management of all functions. Control, comfort, energy efficiency and safety dialogue constantly through a sophisticated and intuitive technology combining style and functionality with no compromises; optimising costs and consumptions, simply and intuitively managing all everyday activities from the smallest to the most important, helping to create a truly comfortable home.

By-alarm integrated with By-me.
By-alarm can be fully integrated with the By-me home automation system through the installation of an IP interface which guarantees a secure and protected connection, both locally and remotely via an internet connection. The functions can be controlled locally - using the touchscreen and the home automation commands and scenarios - or remotely, using the free By-web APP on a smartphone or tablet.

Remote control by By-web app.
The home at your fingertips. Thanks to App and software that enable the remote control of the Home Automation functions, in order to manage all the system supervised by video touch screen, PC, smartphone and tablet.

OFFICE AUTOMATION

HIGH-PERFORMING AVANT-GARDE SYSTEMS IN STEP WITH THE FUTURE.

For the control, comfort, energy efficiency and safety of offices and tertiary premises, Plana offers a series of devices and systems for the quick, effective and centralised management of all work spaces.

Global monitoring.
The whole building is monitored from a single control point. Elegant touch devices are used to control every room, managing all the functions in the building.

Motion detection.
Fitted with an infra-red technology motion detector, the lights come on only when and where needed, and the same device can also manage the intrusion detection alarm.

Central control.
A small technological gem to control every room, with up to 40 different functions. With the immediacy of touch technology.

Data transmission.
Different types of sockets are used to send and receive data quickly and safety, ensuring full working autonomy.

Customised atmosphere.
To respond to different working moments, customised scenarios can be activated - lowering a screen, blinds, dimming the lights or switching on the video projector.

All at your fingertips.
Thanks to the versatility of Plana, the control devices - and the power distribution and data transmission devices - are always close to hand.

WELL-CONTACT PLUS by-com KNX

An automation system developed on the KNX standard for total building management. In an office, community centre or a gym, Well-contact Plus constantly monitors the building, managing lights, temperature, safety, energy and accesses even from a PC, ensuring functionality and comfort in every room.

NETSAFE by-com

A structured wiring system for full connection: data transmission is totally safe, quick and easy, both inside and outside the building. Netsafe blends both technically and stylishly with a conventional electrical system, with highly versatile installation options - flush-, wall-, floor-and underfloor-mounting.

HOTEL SOLUTIONS

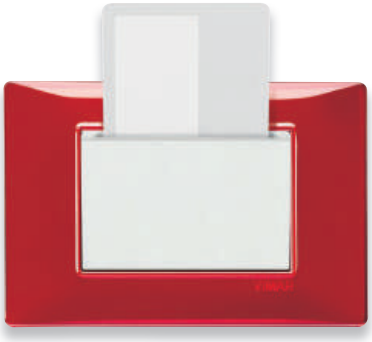

ADVANCED, FLEXIBLE TECHNOLOGIES FOR HOTEL SERVICES.

For hotel management, Plana has a range of innovative devices and systems to control accesses, spaces and manage climate and energy, optimising the facilities and ensuring excellent comfort for guests at all times.

Access control.
Elegant transponder and smart card readers to provide access to various rooms only for authorised persons, thereby guaranteeing absolute security throughout the building.

Presence detection.
Simply insert the magnetic card and the room shows all its splendour: the courtesy lights come on and the temperature is set to the optimum level. A great idea, also for reducing energy waste.

Special devices.
Some special devices are suitable to comunicate the room state indicating by warning units “Do not disturb” or “Please Clean” activated by the guest.

Controls.
With LED backlit buttons to manage up to four different functions locally.

Temperature control.
Climate control device for keeping each room under control. With the KNX standard, it dialogues with the main heating installations using this international protocol.

Touch screen.
Touch technology to monitor and manage a whole area of the building or a single room.

WELL-CONTACT PLUS by-com KNX

Whether a large hotel or a small, cosy bed&breakfast, Well-contact Plus is the system that uses KNX technology to intelligently and effectively manage the whole building, ensuring full synergy of all the devices installed. And using the Well-contact Suite applications, differentiated according to the use and size of the building, it can all be controlled from the computer at reception.
